

Strengthening Teacher and Leader Effectiveness 3 Program

Grantee Information:

Grantee: **Homer Central School District**

Abstract:

The initiatives the district is funding are:

- Establishment of career ladders for teachers and building-level administrators, each with three rungs. For teachers we are adding K-5 Grade Chairs, followed by Curriculum Area Lead Teachers for Grades 6-12, and finally we will hire a K-12 ELA Instructional Coach and a K-12 Instructional Math Coach from within our ranks to support teachers implementation of the Common Core and the modules.
- Outside professional development to support the coaches, as well as all teachers with instructional practice.

Goal: Increase student achievement through more effective teaching and school building leadership practices throughout the district.

These initiatives will positively affect every student in the district, including students who are economically disadvantaged and who have disabilities (Homer's highest-need students).
