<p>CORE K12's technology based Assessment Center platform allows for the management of the entire assessment process including test creation, online and paper-and-pencil delivery, automated scoring, and detailed reporting. The system includes a bank of more than 250,000 questions in reading/ELA, mathematics, science, and social studies aligned to the New York State Learning Standards and the Common Core Standards. In addition, the platform features the optional ipGrowth model - whereby a highly calibrated pool of items in reading/ELA and mathematics is employed to plot student growth in an ipsitive manner. Once a student takes an ipGrowth measure, the next measure is automatically generated based on the results of the previous assessment providing a more accurate, intuitive measure of growth in real time regardless of overall proficiency or grade level performance. We offer complete training and implementation services as well as ongoing project management, professional development, and help desk support.</p>
