Paul D. Savage II, Superintendent
AuSable Valley Central School District
1273 Route 9N
Clintonville, NY 12924

Dear Superintendent Savage:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review Plan (APPR) meets the criteria outlined in Education Law §3012-c and Subpart 30-2 of the Commissioner's Regulations and has been approved for the 2012-2013 school year. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR. If any material changes are made to your approved APPR plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-c, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the student growth subcomponent and any other measures of teacher and principal effectiveness and/or if the teacher or principal scores or ratings show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

John B. King, Jr.
Commissioner

NOTES: If your district/BOCES has provided for value-added measures (15 points vs. 20 points scale and categorization of your district/BOCES's grade configurations) in your APPR and no value-added measures are approved by the Board of Regents for a grade/subject and/or grade configuration for the 2012-13 school year, your district/BOCES will be required to revise and resubmit its APPR accordingly. Conversely, if your district/BOCES has not provided for value-added measures in your district/BOCES's APPR submission and value-added measures are approved for the 2012-13 school year, your district/BOCES will be required to revise and resubmit its APPR accordingly.

Only documents that are incorporated by reference in your APPR have been reviewed and are considered as part of your APPR; therefore, any supplemental documents such as memorandums of agreement or understanding that were uploaded with your APPR but are not incorporated by reference in your APPR have not been reviewed. However, the Department reserves the right to review the uploaded attachments at any time for consistency with your APPR form and/or to ensure compliance with applicable laws and regulations; and as a result of such review, the Department may reject your APPR plan and/or require corrective action.

2. Growth on State Assessments or Comparable Measures (Teachers)

Created Monday, June 04, 2012

Updated Monday, January 14, 2013

Page 1

STATE-PROVIDED MEASURES OF STUDENT GROWTH

(25 points with an approved value-added measure)

For teachers in grades 4 - 8 Common Branch, ELA, and Math, NYSED will provide a value-added growth score. That score will incorporate students' academic history compared to similarly academically achieving students and will use special considerations for students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

While most teachers of 4-8 Common Branch, ELA and Math will have state-provided measures, some may teach other courses in addition where there is no state-provided measure. Teachers with 50 – 100% of students covered by State-provided growth measures will receive a growth score from the State for the full Growth subcomponent score of their evaluation. Teachers with 0 – 49% of students covered by State-provided growth measures must have SLOs for the Growth subcomponent of their evaluation and one SLO must use the State-provided measure if applicable for any courses. (See guidance for more detail on teachers with State-provided measures AND SLOs.)

Please note that if the Board of Regents does not approve a value-added measure for these grades/subjects for 2012-13, the State-provided growth measure will be used for 20 points in this subcomponent. NYSED will provide a HEDI subcomponent rating category and score from 0 to 20 points.

2.1) Assurances

Please check the boxes below:

2.1) Assurances Assure that the value-added growth score provided by NYSED will be used, where applicable.	Checked
2.1) Assurances Assure that the State-provided growth measure will be used if a value-added measure has not been approved for 2012-13.	Checked

STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for teachers in the following grades and subjects. (Please note that for teachers with more than one grade and subject, SLOs must cover the courses taught with the largest number of students, combining sections with common assessments, until a majority of students are covered.)

For core subjects: grades 6-8 Science and Social Studies, high school English Language Arts, Math, Science, and Social Studies courses associated in 2010-11 with Regents exams or, in the future, with other State assessments, the following must be used as the evidence of student learning within the SLO:

State assessments (or Regents or Regent equivalents), *required if one exists*

If no State assessment or Regents exam exists:

District-determined assessments from list of State-approved 3rd party assessments; or

District, regional or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

For other grades/subjects: district-determined assessments from options below may be used as evidence of student learning within the SLO:

State assessments, *required if one exists*

List of State-approved 3rd party assessments

District, regional, or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

School- or BOCES-wide, group or team results based on State assessments

Please note: If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 2.2 through 2.9, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, common branch teachers also teach 6th grade science and/or social studies and therefore would have State-provided growth measures, not SLOs; the district or BOCES does not have certain grades; the district does not offer a specific subject; etc.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

2.2) Grades K-3 ELA

2.11) HEDI Tables or Graphics

For questions 2.2 through 2.10 above, if you are using tables or other graphics to explain your general process for assigning HEDI categories, please combine all such tables or graphics into a single file, labeling each so it is clear which grades/subjects it applies to, and upload that file here.

assets/survey-uploads/5364/138612-TXEttx9bQW/2444007-AVCS 20 pt Conversion Chart.doc

2.12) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in setting targets for Comparable Growth Measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are those used in State Growth measures, which include: student prior academic history, students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents.

Teachers in collaboration with Principal's will establish differentiated class average growth targets for Students with Disabilities and/or Poverty. Teachers scores will be determined using the conversion chart in 2.11

2.13) Teachers with more than one growth measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI rating and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Common branch teacher with state-provided value-added measures for both ELA and Math in 4th grades; Middle school math teacher with both 7th and 8th grade math courses.)

If educators have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points which Districts must weight proportionately based on the number of students in each SLO.

2.14) Assurances

Please check all of the boxes below:

2.14) Assurances Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.	Checked
2.14) Assurances Assure that use of locally developed controls will not have a disparate impact on underrepresented students in accordance with applicable civil rights laws.	Checked

Locally Selected Measures of Student Achievement or Growth

"Comparable across classrooms" means that the same locally-selected measures of student achievement or growth must be used across all classrooms in the same grade/subject in the district or BOCES.

Please note: If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 3.1 through 3.11, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, the district does not have certain grades, the district does not offer a specific subject, etc.

Locally selected measures for common branch teachers: This form calls for locally selected measures in both ELA and math in grades typically served by common branch teachers. Districts may select local measures for common branch teachers that involve subjects other than ELA and math. Whatever local measure is selected for common branch teachers, please enter it under ELA and/or math and describe the assessment used, including the subject. Use N/A for other lines in that grade level that are served by common branch teachers. Describe the HEDI criteria for the measure in the same section where you identified the locally selected measure and assessment.

.Please note: Only one locally-selected measure is required for teachers in the same grade/subject across the district, but some districts may prefer to have more than one measure for all teachers within a grade/subject. Also note: Districts may use more than one locally-selected measure for **different** groups of teachers **within a grade/subject** if the district/BOCES verifies comparability based on Standards of Educational and Psychological Testing. This APPR form only provides space for one measure for teachers in the same grade/subject across the district. Therefore, if more than one locally-selected measure is used for all teachers in any grades or subject, districts must complete additional copies of this form and upload as attachments for review.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR TEACHERS IN GRADES FOR WHICH THERE IS AN APPROVED VALUE-ADDED MEASURE (15 points)

Growth or achievement measure(s) from these options.

One or more of the following types of local measures of student growth or achievement may be used for the evaluation of teachers.

The options in the drop-down menus below are abbreviated from the following list:

Measures based on:

- 1) The change in percentage of a teacher’s students who achieve a specific level of performance as determined locally, on such assessments/examinations compared to those students’ level of performance on such assessments/examinations in the previous school year (e.g., a three percentage point increase in students earning the proficient level (three) or better performance level on the 7th grade math State assessment compared to those same students’ performance levels on the 6th grade math State assessment, or an increase in the percentage of a teacher’s students earning the advanced performance level (four) on the 4th grade ELA or math State assessments compared to those students’ performance levels on the 3rd grade ELA or math State assessments)

- 2) Teacher specific growth score computed by the Department based on the percent of the teacher’s students earning a State determined level of growth. The methodology to translate such growth into the State-established sub-component scoring ranges shall be determined locally

- 3) Teacher specific achievement or growth score computed in a manner determined locally based on a measure of student performance on the State assessments, Regents examinations and/or Department approved alternative examinations other than the measure described in subclause 1) or 2) of this clause

- 4) Student growth or achievement computed in a manner determined locally based on a State-approved 3rd party assessment

- 5) Student growth or achievement computed in a manner determined locally based on a district, regional or BOCES-developed assessment that is rigorous and comparable across classrooms

- 6) A school-wide measure of either student growth or achievement based on either:
 - (i) A State-provided student growth score covering all students in the school that took the State assessment in ELA or Math in Grades 4-8; or
 - (ii) A school-wide measure of student growth or achievement computed in a manner determined locally based on a State, State-approved 3rd party, or district, regional or BOCES developed assessment that is rigorous and comparable across classrooms.

3.1) Grades 4-8 ELA

Using the drop-down boxes below, select the assessment that will be used for the locally-selected measure for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment.

For Grades 4-8 ELA: describe the district-adopted expectations for the level of growth or achievement needed for a teacher to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a teacher to earn any of the points in a scoring range, consistent with regulations and assurances.

Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.

For Teachers using the NYS ELA and Math Assessments proficiency benchmark of a 3 or higher will be established. For Teachers using the NYS Regents a proficiency benchmark of 65 will be established. In order to determine the school wide HEDI score, a three step process will be utilized. Step 1-a preliminary percentage data point will be determined by looking at the overall percentage of students who meet or exceed proficiency benchmarks on the assessments listed above. Step 2-once this preliminary percentage data point is established it will be compared to the NYS average of students who met or exceeded the state proficiency benchmark. The result will be a percent increase/decrease final data point which will be used to determine the HEDI score. Step 3- take the percent increase/decrease and determine the corresponding HEDI score using the uploaded conversion chart in task 3.3 See Table 2.</p> <p>For Grade 7 8: The teacher in collaboration with the Principal will establish proficiency benchmarks as outlined above. Highly Effective (18-20 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Combined assesment scores are exceptional and exceed the expectation as noted in the charts attached at 3.13 below
Developing (3 - 8 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Combined assesment scores do not meet the expectation of the district and demonstrate opportunities for improvement as noted in the charts attached at 3.13 below
Effective (9 - 17points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Combined assesment scores do not meet the expectation of the district and demonstrate opportunities for improvement as noted in the charts attached at 3.13 below
Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Combined assesment scores are not acceptable and reflect a need for immediate improvement as noted in the charts attached at 3.13 below

3.10) High School Math

Using the drop-down boxes below, select the assessment that will be used for the locally-selected measure for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment.

Note: Additional high school math courses may be listed below in the "All Other Courses" section of this form.

For Teachers using the NYS ELA and Math Assessments proficiency benchmark of a 3 or higher will be established. For Teachers using the NYS Regents a proficiency benchmark of 65 will be established. In order to determine the school wide HEDI score, a three step process will be utilized. Step 1-a preliminary percentage data point will be determined by looking at the overall percentage of students who meet or exceed proficiency benchmarks on the assessments listed above. Step 2-once this preliminary percentage data point is established it will be compared to the NYS average of students who met or exceeded the state proficiency benchmark. The result will be a percent increase/decrease final data point which will be used to determine the HEDI score. Step 3- take the percent increase/decrease and determine the corresponding HEDI score using the uploaded conversion chart in task 3.13 See Table 1.</p> <p>For all other 7 through 12 teachers: The teacher in collaboration with the Principal will establish proficiency benchmarks as 65 or Higher. 4.1) Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on NYS Teaching Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

The "Second Rubric" space is required for districts that have chosen an observation-only rubric (CLASS or NYSTCE) from the State-approved list.

(Note: Any district may use multiple rubrics, as long as the same rubric(s) is used for all classroom teachers in a grade/subject across the district.)

4.2) Points Within Other Measures

State the number of points (if any) that will be assigned to each of the following measures, making sure that the points total 60. If you are not using a particular measure, enter 0.

This APPR form only provides one space for assigning points within other measures for teachers. If your district/BOCES prefers to assign points differently for different groups of teachers, enter the points assignment for one group of teachers below. For the other group(s) of teachers, fill out copies of this form and upload as an attachment for review.

Is the following points assignment applicable to all teachers?

Yes

If you checked "no" above, fill in the group of teachers covered (e.g., "probationary teachers"):

(No response)

Multiple (at least two) classroom observations by principal or other trained administrator, at least one of which must be unannounced [at least 31 points]	35
One or more observation(s) by trained independent evaluators	0
Observations by trained in-school peer teachers	0
Feedback from students using State-approved survey tool	0
Feedback from parents/caregivers using State-approved survey tool	0
Structured reviews of lesson plans, student portfolios and other teacher artifacts	25

If the above points assignment is not for "all teachers," fill out an additional copy of "Form 4.2: Points Within Other Measures" for each group of teachers, combine them into a single file, and upload as an attachment for review. Click here for a downloadable copy of Form 4.2. (MS Word)

If the district plans to use one or more of the following surveys of P-12 students from the menu of State-approved surveys, please check all that apply. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu. Note: As the State-approved survey lists are updated, this form will be updated with additional approved survey tools.

4.4) Assurances

Please check all of the boxes below:

4.4) Assurances Assure that all NYS Teaching Standards not addressed in classroom observations are assessed at least once a year.	Checked
4.4) Assurances Assure that the process for assigning points for the "other measures" subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators' performance in ways that improve student learning and instruction.	Checked
4.4) Assurances Assure that it is possible for an educator to earn each point, including 0, for the "other measures" subcomponent.	Checked
4.4) Assurances Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the district.	Checked

4.5) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the teacher practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

Teachers will be assigned a raw score from 0 to 60 based on observations and evidence binders using the Thoughtful Classroom Effectiveness Framework Rubric. In order to determine this score (0 to 60),

- 1) The teacher will receive a score of 1-4 for each indicator observed within the 10 dimensions during the classroom observations and walkthroughs. The score from all observed components within each dimension will be averaged to determine an average dimension score out of 1-4. Once all dimensions are scored they will be averaged together resulting in an Overall Observation Score out of 1-4.*
- 2) The teacher will receive a score of 1-4 for each indicator evidenced within the 10 dimensions as found in the teacher's evidence binder. The score from all evidenced components within each dimension will be averaged to determine an average dimension score out*

of 1-4. Once all dimensions are scored they will be averaged together resulting in an Overall Binder Score out of 1-4.

3) The Overall Observation Score and Overall Binder Score will then be combined in a weighted average in a 35/25 (respectively) proportion to determine the Overall Rubric Score.

4) The Overall Rubric Score will then convert to a HEDI score of 0 to 60 using the uploaded conversion chart uploaded below.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

6.1) Assurances -- Improvement Plans Assure that teachers who receive a Developing or Ineffective rating will receive a Teacher Improvement Plan (TIP) within 10 school days from the opening of classes in the school year following the performance year	Checked
6.1) Assurances -- Improvement Plans Assure that TIP plans shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a teacher's improvement in those areas	Checked

6.3) Appeals Process

Pursuant to Education Law section 3012-c, a teacher may only challenge the following in an appeal:

(1) the substance of the annual professional performance review

(2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

F. Appeals of Annual Professional Performance Reviews

To the extent that a teacher wishes to issue an appeal, the following appeals procedure is established.

1. Appeals will be limited to:

a. *Non-tenured teachers have a right to attach a written rebuttal of the APPR rating and conclusions to the APPR evaluation document.*

b. *Only tenured teachers may utilize the appeals process.*

c. *Tenured teachers may only appeal an ineffective or developing APPR composite rating.*

d. *Any teacher may appeal an improvement plan if and only if the plan was generated as the result of an ineffective or developing composite rating in accordance with section 2.e. below.*

2. *The scope of any appeal will be limited to the following subjects:*

a. *The substance of the individual's annual professional performance review;*

b. *The District's adherence to the standards and methodologies required for such reviews, pursuant to Education Law 3012-c;*

c. *The adherence to the Commissioner's regulations, as applicable to such reviews;*

d. *Compliance with any applicable locally negotiated procedures regarding annual professional performance reviews or improvement plans, as limited by Section 1, above; or,*

e. *The District's issuance and/or implementation of the terms of the teacher improvement plan under Education Law 3012-c in connection with an ineffective or developing rating.*

3. *A teacher may not file multiple appeals regarding the same performance review or teacher improvement plan. All grounds for appeal must be raised with specificity within one appeal. Any grounds not raised at the time the appeal is filed shall be deemed waived.*

4. *In an appeal, the teacher has the responsibility of demonstrating a right to the relief requested and the responsibility of establishing the facts upon which petitioner seeks relief.*

5. *The following timelines will be strictly adhered to unless extended by mutual agreement. In no such case will this extension not be timely and expeditious. Failure of the petitioner to meet a timeline will nullify the appeal; failure of the respondent to meet a timeline will allow movement of the appeal to the next level.*

Level 1 – Evaluator

a. *Following a qualifying event, as defined in Sections 1 and 2, above, the teacher shall be encouraged and shall be entitled to schedule a follow up meeting to discuss with the evaluator any and all related issues.*

b. *Any appeal must be submitted to the evaluator in writing no later than ten (10) school days of the date when the teacher receives his/her annual professional performance review. If a teacher is challenging the issuance or implementation of a teacher improvement plan, the appeal must be submitted in writing within ten (10) school days of issuance or of the time when the teacher knew or should have known of an alleged implementation breach of such plan. In no such case will commencement of an appeal not be timely or expeditious.*

c. *When filing an appeal, the teacher must submit a detailed written description of the specific grounds for the appeal as well as the performance review and/or improvement plan being challenged. Along with the appeal, all supporting documentation must be submitted, or specifically noted if pending. Any grounds for appeal or any supporting documentation/information not submitted or noted at the time the appeal is filed shall not be considered.*

d. *Within ten (10) school days of receipt of an appeal, the evaluator responsible for the issue(s) being appealed must submit a detailed written response to the appeal. Along with the response, all supporting documentation must be submitted, or specifically noted if pending, as well as any additional documents or materials relevant to the response. Any supporting documentation/ information not submitted or noted at the time the response is issued shall not be considered in the deliberations related to the resolution of the appeal. The teacher initiating the appeal, and the Teachers' Association President, shall receive copies of the response and any and all additional information submitted with the response. The decision of the evaluator is final and binding unless the teacher initiating the appeal wishes to appeal the decision to Level 2.*

Level 2 – Panel Ineffective

a. Within five (5) school days of receipt of the Level 1 determination, if a teacher is not satisfied with such determination, the teacher may submit the appeal to a panel comprised of two teacher representatives chosen by the AVTA and one Superintendent representative. The panel will be provided the entire appeals record.

b. All members of the panel will be trained and certified as evaluators. The panel will not include the original evaluator or the teacher whose evaluation is before the panel.

c. Within five (5) school days of receipt of the teacher's appeal, the panel will jointly conduct a paper review and deliberation of the matter, and will issue a written recommendation for resolution to the teacher and the Superintendent of Schools. The recommendation may be to deny the appeal, to sustain the appeal and grant the remedy sought, or to sustain the appeal and modify the remedy; further, reasoning for the recommendation, as well as dissenting opinions, if any, will be included with the recommendation. Appeals of ineffective ratings will proceed to Level 3 below.

d. The district will provide meeting and preparation time accommodations for panel members during early release days or using substitute coverage.

Level 2 – Panel Developing

a. Within five (5) school days of receipt of the Level 1 determination, if a teacher is not satisfied with such determination, the teacher may submit the appeal to a three member peer panel comprised of teacher representatives chosen by the AVTA. The panel will be provided the entire appeals record. The decision of the panel will be final and binding.

b. All members of the panel will be trained and certified as evaluators. The teacher whose evaluation is before the panel may not be a member of the panel.

c. Within five (5) school days of receipt of the teacher's appeal, the panel will jointly conduct a paper review and deliberation of the matter, and will issue a written resolution to the teacher and the Superintendent of Schools. The decision may be to deny the appeal, to sustain the appeal and grant the remedy sought, or to sustain the appeal and modify the remedy; further, reasoning for the decision, as well as dissenting opinions, if any, will be included with the final and binding decision.

d. The district will provide meeting and preparation time accommodations for panel members during early release days or using substitute coverage.

Level 3 – Superintendent

a. Upon receipt of a level two (2) ineffective appeal, the Superintendent of schools will, within five (5) school days, give due consideration to the panel's recommendation and will issue a final and binding decision, in writing, to the appellant, to the Teachers' Association, and to the panel members. Whether the appeal is denied, sustained, or modified, such decision will set forth the reasons and factual basis for each determination on each of the specific grounds raised in the appeal. If the appeal is sustained, the Superintendent may set aside or modify a rating or improvement plan or order a new evaluation or improvement plan if procedures have been violated. The decision of the Superintendent is final and binding.

b. The entire Appeals record will be part of the teacher's APPR.

c. This appeals procedure constitutes the exclusive means for initiating, reviewing, and resolving any and all appeals within the scope of Sections 1 and 2 above. A teacher may not resort to any other contractual grievance procedure for the resolution of these appeals or other related APPR matters, except as otherwise authorized by law.

d. Nothing in this appeals procedure will restrict the right of the district or the obligation of the teacher to proceed in accordance with otherwise standard practice, e.g., implementation of an improvement plan or denial/granting of tenure, while an appeal is pending except for performance.

At no time in the appeals process will the process not be timely or expeditious.

6.4) Training and Certification of Lead Evaluators and Evaluators

Describe the process by which evaluators will be trained and the process for how the district will certify and re-certify lead evaluators. Describe the process for ensuring inter-rater reliability. Describe the duration and nature of such training.

The evaluators and lead evaluators have been trained through the local BOCES administrators who received their training directly from SED. The training is based on 9 elements as outlined in NYS Commissioner of Education Regulation 30-2.9. The school board

has certified that the administrators are certified and that the lead evaluators for the district will complete all observations. The training will be ongoing through the local efforts of BOCES, SED trainings as well as directly from the Silver Strong Thoughtful Classroom trainers. Inter-rater reliability will be ensured through the Silver Strong Thoughtful Classroom training sessions.

This process will be used to certify and recertify evaluators and lead evaluators.

7. Growth on State Assessments or Comparable Measures (Principals)

Created Monday, August 06, 2012
Updated Tuesday, December 18, 2012

Page 1

7.1) STATE-PROVIDED MEASURES OF STUDENT GROWTH (25 points with an approved Value-Added Measure)

For principals in buildings with Grades 4-8 ELA, Math and/or High School courses with State or Regents assessments, (or principals of programs with any of these assessments), NYSED will provide value-added measures. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

In order for a principal to receive a State-provided value-added measure, at least 30% of the students in the principal's school or program must take the applicable State or Regents assessments. This will include most schools in the State.

Value-Added measures will apply to schools or principals with the following grade configurations in this district (please list, e.g., K-5, PK-6, 6-8, 6-12, 9-12):

K-6 AuSable Forks
7-8
9-12
K-6 Keeseville

7.3) STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for principals in buildings or programs in which fewer than 30% of students take Grades 4-8 ELA, Math, and/or High School courses with State or Regents assessments. SLOs will be developed using the assessment covering the most students in the school or program and continuing until at least 30% of students in the school or program are covered by SLOs. District-determined assessments from the options below may be used as evidence of student learning within the SLO:

State assessments, *required if one exists*

District, regional, or BOCES-developed assessments that are rigorous and comparable across classrooms

List of State-approved 3rd party assessments

First, list the school or program type this SLO applies to. Then, using the drop-down boxes below, please select the assessment that will be used for SLOs for the school/program listed. Finally, name the specific assessment listing the full name of the assessment. Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

Please remember that State assessments must be used with SLOs if applicable to the school or program type.

School or Program Type	SLO with Assessment Option	Name of the Assessment

Describe the district-adopted expectations for the level of performance required for each HEDI rating category and the process for assigning points to principals based on SLO results, consistent with regulations and assurances in the Comparable Growth Measures subcomponent. Include any district-determined expectations for student performance.

Use this box, if needed, to describe the process for assigning HEDI categories in this subcomponent. If needed, you may upload a table or graphic below.	(No response)

7.4) Special Considerations for Comparable Growth Measures

Describe any adjustments, controls, or other special considerations that will be used in setting targets for Comparable Growth Measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are those used in State Growth measures, which

include: prior student achievement results, students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents.

(No response)

7.5) Principals with More Than One Growth Measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI category and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Principals of K-8 schools with growth measures for ELA and Math grades 4-8.)

If Principals have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points and Districts will weight each in proportion to the number of students covered by the SLO to reach a combined score for this subcomponent.

7.6) Assurances -- Comparable Growth Measures

Please check all of the boxes below:

7.6) Assurances -- Comparable Growth Measures Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.	Checked

7.6) Assurances -- Comparable Growth Measures Assure that it is possible for a principal to earn each point, including 0, for SLOs in the Growth subcomponent scoring range.	Checked

8. Local Measures (Principals)

Created Monday, August 06, 2012

Updated Wednesday, January 02, 2013

Page 1

Locally-Selected Measures of Student Achievement or Growth

Locally comparable means that the same locally-selected measures of student achievement or growth must be used for all principals in the same or similar programs or grade configurations across the district or BOCES.

Please note: only one locally-selected measure is required for principals in the same or similar programs or grade configurations, but some districts may prefer to have more than one measure for principals in the same or similar programs or grade configurations. This APPR form therefore provides space for multiple locally-selected measures for each principal in the same or similar program or grade configuration across the district. Therefore, if more than one locally-selected measure is used for all principals in the same or similar program or grade configuration, districts must complete additional copies of this form and upload as attachments for review.

Also note: districts may use more than one locally-selected measure for **different** groups of principals **within the same or similar programs or grade configurations** if the district/BOCES prove comparability based on Standards of Educational and Psychological Testing. If a district is choosing different measures for different groups of principals within the same or similar programs or grade configurations, they must complete additional copies of this form and upload as attachments for review.

8.1) LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR PRINCIPALS WITH AN APPROVED VALUE-ADDED MEASURE (15 points)

In the table below, list all of the grade configurations used in your district or BOCES (e.g., K-5, 6-8, 9-12). Then for each grade configuration, select a local measure from the menu.

Note: Districts and BOCES may select one or more types of growth or achievement measures for each grade configuration. If you are using more than one type of local measure for the evaluation of principals in a given grade configuration, list that grade configuration multiple times. If more space is needed, duplicate this portion of the form and upload additional pages (below) as an attachment.

The options in the drop-down menus below are abbreviated from the following list:

(a) student achievement levels on State assessments in ELA and/or Math in Grades 4-8 (e.g., percentage of students in the school whose performance levels on State assessments are proficient or advanced)

(b) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students in each specific performance level (e.g., Level 1, Level 2)

(c) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students with disabilities and English Language Learners in Grades 4-8

- (d) student performance on any or all of the district-wide locally selected measures approved for use in teacher evaluations
- (e) four, five and/or six-year high school graduation and/or dropout rates for principals employed in a school with high school grades
- (f) percentage of students who earn a Regents diploma with advanced designation and/or honors for principals employed in a school with high school grades
- (g) percentage of a cohort of students that achieve specified scores on Regents examinations and/or Department approved alternative examinations (including, but not limited to, Advanced Placement examinations, International Baccalaureate examinations, SAT II, etc.), for principals employed in a school with high school grades (e.g., the percentage of students in the 2009 cohort that scored at least a 3 on an Advanced Placement examination since entry into the ninth grade)
- (h) students' progress toward graduation in the school using strong predictive indicators, including but not limited to 9th and/or 10th grade credit accumulation and/or the percentage of students that pass 9th and/or 10th grade subjects most commonly associated with graduation and/or students' progress in passing the number of required Regents examinations for graduation, for principals employed in a school with high school grades

Grade Configuration	Locally-Selected Measure from List of Approved Measures	Assessment
K-6 AuSable Forks	(d) measures used by district for teacher evaluation	Grade 6 NYS ELA Assessment and Grade 6 NYS Mathematics Assessment
K-6 Keeseville	(d) measures used by district for teacher evaluation	Grade 6 NYS ELA Assessment and Grade 6 NYS Mathematics Assessment

9-12	(d) measures used by district for teacher evaluation	NYS Regents Exams in Integrated Algebra, Comprehensive English, Living Environment and U.S. History

Describe the district-adopted expectations for the level of growth or achievement needed for a principal to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a principal to earn any of the points in a scoring range, consistent with regulations and assurances.

Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.

<p>Use this box, if needed, to describe the process for assigning HEDI categories. If needed, you may upload a table or graphic below.</p>	<p>For K to 6 Principals: The Principal in collaboration with the Superintendent will establish proficiency benchmarks. For Principals using the NYS ELA and Math Assessments proficiency benchmark of a 3 or higher will be established. For Principals using the NYS Regents a proficiency benchmark of 65 will be established. In order to determine the school wide HEDI score, a three step process will be utilized. Step 1-a preliminary percentage data point will be determined by looking at the overall percentage of students who meet or exceed proficiency benchmarks on the assessments listed above. Step 2-once this preliminary percentage data point is established it will be compared to the NYS average of students who met or</p>

exceeded the state proficiency benchmark. The result will be a percent increase/decrease final data point which will be used to determine the HEDI score. Step 3- take the percent increase/decrease and determine the corresponding HEDI score using the uploaded Table 2 in task 8.1.

For 7-8, 9-12 Principal : The Principal in collaboration with the Superintendent will establish proficiency benchmarks as 65 or Higher.

Based on the overall percentage of students who meet or exceed the proficiency benchmark a corresponding 0 to 20 HEDI score will be determined using Table 4 in task 8.1

9.7) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the principal practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

Principals will be assigned a raw score from 0 to 60 based on observations, Goal Setting, Self Analysis and Evidenced Binders using the Marshall's Principal Evaluation Rubric. In order to determine this score (0 to 60), the principal will receive a score of 1-4 for each component observed within the 6 domains. The score from all observed components within each domain will be averaged to determine an average Domain score out of 1-4. Once all Domains are scored they will be averaged together resulting in an Overall Rubric Score out of 1-4. The Overall Rubric Score will then convert to a HEDI score of 0 to 60 using the uploaded conversion chart in below.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

All grounds for appeal must be raised within one appeal, provided that the principal knew or could have reasonably known the ground(s) existed at the time the appeal was initiated, in which instance a further appeal may be filed but only based upon such previously unknown ground(s).

APPR Subject to Appeal Procedure

Any unit member aggrieved by an APPR rating of either “ineffective,” or “developing” may challenge that APPR.

In accordance with Education Law §3012-c (5), an APPR which is the subject of a pending appeal shall not be sought to be offered in evidence or placed in evidence in any Education Law §3020-a proceeding, or any locally negotiated procedure, until the appeal process is concluded.

[] Decisions on Appeal

Step 1 – Conference with the superintendent. The bargaining unit member shall upon request be entitled to an Association representative being present. The conference shall be an informal meeting wherein the superintendent and the employee are able to discuss the evaluation and the areas of dispute. If the bargaining unit member is not satisfied with the outcome, he/she may proceed to the second step. The second step shall be initiated by the unit member notifying the Committee in writing, within 5 days of the conclusion of the conference.

Teacher Improvement/Principal Improvement Plan

A Teacher/Principal Improvement Plan (TIP/PIP) is designed to provide support through communication, discussion and collaboration in the identified area(s) in need of growth/improvement. In addition to the teacher and administrator, other representatives may participate in the development of the plan, at the discretion of the Teacher or Principal. Participants will jointly determine the action plan to address areas in need of growth/improvement. It is agreed that the primary responsibility for growth/improvement remains with the teacher/principal.

Rationale for TIP/PIP:

1. Any Teacher/Principal who receives an ineffective or a developing APPR composite score will participate in an improvement Plan.
2. Any Teacher/Principal may be requested to participate in a TIP/PIP. A TIP/PIP may be developed in instances where there are areas in need of improvement for a Teacher/Principal with an effective APPR composite score.

Area(s) in Need of Improvement: As Evidenced by observation on _____ (date and time) or at the conclusion of an APPR.

Linked to NYS Teaching Standards (TIP):

- Identify at least 1-3 STANDARD areas in need.
