Robert Molisani, Superintendent  
Caledonia-Mumford Central School District  
99 North St.  
Caledonia, NY 14423

Dear Superintendent Molisani:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review Plan (APPR) meets the criteria outlined in Education Law §3012-c and Subpart 30-2 of the Commissioner's Regulations and has been approved for the 2012-2013 school year. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR. If any material changes are made to your approved APPR plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-c, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the student growth subcomponent and any other measures of teacher and principal effectiveness and/or if the teacher or principal scores or ratings show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

  
John B. King, Jr.  
Commissioner

NOTES: If your district/BOCES has provided for value-added measures (15 points vs. 20 points scale and categorization of your district/BOCES's grade configurations) in your APPR and no value-added measures are approved by the Board of Regents for a grade/subject and/or grade configuration for the 2012-13 school year, your district/BOCES will be required to revise and resubmit its APPR accordingly. Conversely, if your district/BOCES has not provided for value-added measures in your district/BOCES's APPR submission and value-added measures are approved for the 2012-13 school year, your district/BOCES will be required to revise and resubmit its APPR accordingly.

Only documents that are incorporated by reference in your APPR have been reviewed and are considered as part of your APPR; therefore, any supplemental documents such as memorandums of agreement or understanding that were uploaded with your APPR but are not incorporated by reference in your APPR have not been reviewed. However, the Department reserves the right to review the uploaded attachments at any time for consistency with your APPR form and/or to ensure compliance with applicable laws and regulations; and as a result of such review, the Department may reject your APPR plan and/or require corrective action.

## 2. Growth on State Assessments or Comparable Measures (Teachers)

### Page 1

#### STATE-PROVIDED MEASURES OF STUDENT GROWTH

(25 points with an approved value-added measure)

For teachers in grades 4 - 8 Common Branch, ELA, and Math, NYSED will provide a value-added growth score. That score will incorporate students' academic history compared to similarly academically achieving students and will use special considerations for students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

While most teachers of 4-8 Common Branch, ELA and Math will have state-provided measures, some may teach other courses in addition where there is no state-provided measure. Teachers with 50 – 100% of students covered by State-provided growth measures will receive a growth score from the State for the full Growth subcomponent score of their evaluation. Teachers with 0 – 49% of students covered by State-provided growth measures must have SLOs for the Growth subcomponent of their evaluation and one SLO must use the State-provided measure if applicable for any courses. (See guidance for more detail on teachers with State-provided measures AND SLOs.)

Please note that if the Board of Regents does not approve a value-added measure for these grades/subjects for 2012-13, the State-provided growth measure will be used for 20 points in this subcomponent. NYSED will provide a HEDI subcomponent rating category and score from 0 to 20 points.

#### 2.1) Assurances

Please check the boxes below:

2.1) Assurances   Assure that the value-added growth score provided by NYSED will be used, where applicable.	Checked
2.1) Assurances   Assure that the State-provided growth measure will be used if a value-added measure has not been approved for 2012-13.	Checked

#### STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for teachers in the following grades and subjects. (Please note that for teachers with more than one grade and subject, SLOs must cover the courses taught with the largest number of students, combining sections with common assessments, until a majority of students are covered.)

**For core subjects: grades 6-8 Science and Social Studies, high school English Language Arts, Math, Science, and Social Studies courses associated in 2010-11 with Regents exams or, in the future, with other State assessments, the following must be used as the evidence of student learning within the SLO:**

State assessments (or Regents or Regent equivalents), *required if one exists*

If no State assessment or Regents exam exists:

District-determined assessments from list of State-approved 3rd party assessments; or

District, regional or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

**For other grades/subjects: district-determined assessments from options below may be used as evidence of student learning within the SLO:**

State assessments, *required if one exists*

List of State-approved 3rd party assessments

District, regional, or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

School- or BOCES-wide, group or team results based on State assessments

**Please note:** If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 2.2 through 2.9, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, common branch teachers also teach 6th grade science and/or social studies and therefore would have State-provided growth measures, not SLOs; the district or BOCES does not have certain grades; the district does not offer a specific subject; etc.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

## 2.2) Grades K-3 ELA

Using the drop-down boxes below, please first select the assessment that will be used for SLOs for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment. State assessments must be used where applicable.

For K-3 ELA: describe the district-adopted expectations for the level of performance required for each HEDI rating category and the process for assigning points to teachers based on SLO results consistent with regulations and assurances in the Comparable Growth Measures subcomponent. Include any district-determined expectations for student performance.

Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 2.11, below. Highly Effective (18 - 20 points) Results are well-above state average for similar students (or District goals if no state test).	Teachers will receive a rating of Highly Effective when 85-100% of the students meet their individual target.
Effective (9 - 17 points) Results meet state average for similar students (or District goals if no state test).	Teachers will receive a rating of Effective when 65-84.9% of the students meet their individual target.
Developing (3 - 8 points) Results are below state average for similar students (or District goals if no state test).	Teachers will receive a rating of Developing when 55-64.9% of the students meet their individual target.

## 2.12) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in setting targets for Comparable Growth Measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are those used in State Growth measures, which include: student prior academic history, students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents.

*The only controls used in setting targets for Comparable Growth Measures will be students prior academic history. Whether students have a disability, are English language learners, or are in poverty, appropriate targets can be established for them based on their prior academic achievement levels.*

## 2.13) Teachers with more than one growth measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI rating and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Common branch teacher with state-provided value-added measures for both ELA and Math in 4th grades; Middle school math teacher with both 7th and 8th grade math courses.)

If educators have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points which Districts must weight proportionately based on the number of students in each SLO.

## 2.14) Assurances

#### Locally Selected Measures of Student Achievement or Growth

"Comparable across classrooms" means that the same locally-selected measures of student achievement or growth must be used across all classrooms in the same grade/subject in the district or BOCES.

Please note: If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 3.1 through 3.11, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, the district does not have certain grades, the district does not offer a specific subject, etc.

Locally selected measures for common branch teachers: This form calls for locally selected measures in both ELA and math in grades typically served by common branch teachers. Districts may select local measures for common branch teachers that involve subjects other than ELA and math. Whatever local measure is selected for common branch teachers, please enter it under ELA and/or math and describe the assessment used, including the subject. Use N/A for other lines in that grade level that are served by common branch teachers. Describe the HEDI criteria for the measure in the same section where you identified the locally selected measure and assessment.

.Please note: Only one locally-selected measure is required for teachers in the same grade/subject across the district, but some districts may prefer to have more than one measure for all teachers within a grade/subject. Also note: Districts may use more than one locally-selected measure for **different** groups of teachers **within a grade/subject** if the district/BOCES verifies comparability based on Standards of Educational and Psychological Testing. This APPR form only provides space for one measure for teachers in the same grade/subject across the district. Therefore, if more than one locally-selected measure is used for all teachers in any grades or subject, districts must complete additional copies of this form and upload as attachments for review.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

#### LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR TEACHERS IN GRADES FOR WHICH THERE IS AN APPROVED VALUE-ADDED MEASURE (15 points)

**Growth or achievement measure(s) from these options.**

*One or more of the following types of local measures of student growth or achievement may be used for the evaluation of teachers.*

*The options in the drop-down menus below are abbreviated from the following list:*

Measures based on:

1) The change in percentage of a teacher’s students who achieve a specific level of performance as determined locally, on such assessments/examinations compared to those students’ level of performance on such assessments/examinations in the previous school year (e.g., a three percentage point increase in students earning the proficient level (three) or better performance level on the 7th grade math State assessment compared to those same students’ performance levels on the 6th grade math State assessment, or an increase in the percentage of a teacher’s students earning the advanced performance level (four) on the 4th grade ELA or math State assessments compared to those students’ performance levels on the 3rd grade ELA or math State assessments)

2) Teacher specific growth score computed by the Department based on the percent of the teacher’s students earning a State determined level of growth. The methodology to translate such growth into the State-established sub-component scoring ranges shall be determined locally

3) Teacher specific achievement or growth score computed in a manner determined locally based on a measure of student performance on the State assessments, Regents examinations and/or Department approved alternative examinations other than the measure described in subclause 1) or 2) of this clause

4) Student growth or achievement computed in a manner determined locally based on a State-approved 3rd party assessment

5) Student growth or achievement computed in a manner determined locally based on a district, regional or BOCES-developed assessment that is rigorous and comparable across classrooms

6) A school-wide measure of either student growth or achievement based on either:

(i) A State-provided student growth score covering all students in the school that took the State assessment in ELA or Math in Grades 4-8; or

(ii) A school-wide measure of student growth or achievement computed in a manner determined locally based on a State, State-approved 3rd party, or district, regional or BOCES developed assessment that is rigorous and comparable across classrooms.

### 3.1) Grades 4-8 ELA

Using the drop-down boxes below, select the assessment that will be used for the locally-selected measure for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment.

Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 3.3, below.	Using data results generated from the regionally developed pre-assessments, the percentage of students meeting the achievement target will be established by the principal and teacher and converted to a scale score of 0-15. The negotiated scale is shown in 3.3. Teachers can achieve all scale points from 0-15.
Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	A teacher will be rated Highly Effective if 85% or more of his/her students meet the achievement target.
Effective (8- 13 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	A teacher will be rated Effective if 65%-84.9% or more of his/her students meet the achievement target.

Using data results generated from the regionally developed pre-assessments, the percentage of students meeting the achievement target will be established by the principal and teacher and converted to a scale score of 0-20. The negotiated scale is shown in 3.13. Teachers can achieve all scale points from 0-20.
---	--

Highly Effective (18 - 20 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Using data results from regionally developed pre-assessments, the percentage of population that reaches the target goal of 85-100% will earn a teacher a Highly Effective rating score.
Effective (9 - 17 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Using data results from regionally developed pre-assessments, the percentage of population that reaches the target goal of 65-84.9% will earn a teacher a Effective rating score.
Developing (3 - 8 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Using data results from regionally developed pre-assessments, the percentage of population that reaches the target goal of 55-64.9% will earn a teacher a Developing rating score.
Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	Using data results from regionally developed pre-assessments, the percentage of population that reaches the target goal of 0-54.9% will earn a teacher a Ineffective rating score.

### 3.13) HEDI Tables or Graphics

For questions 3.4 through 3.12 above, if you are using tables or other graphics to explain your general process for assigning HEDI categories, please combine all such tables or graphics into a single file, labeling each so it is clear which grades/subjects it applies to, and upload that file here.

*assets/survey-uploads/5139/127425-y92vNseFa4/20 point Teacher Conversion Chart\_1.docx*

### 3.14) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in setting targets for local measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

*The only controls used in setting targets for Comparable Growth Measures will be students prior academic history. Whether students have a disability, are English language learners, or are in poverty, appropriate targets can be established for them based on their prior academic achievement levels.*

### 3.15) Teachers with More Than One Locally Selected Measure

Describe the district's process for combining multiple locally selected measures, each scored from 0-15 or 0-20 points as applicable, into a single subcomponent HEDI category and score. Examples may include: 4th grade teacher with locally-selected measures for both ELA and Math; High School teacher with more than 1 SLO.

*Achievement targets are set for each student. The number of students meeting the target will be divided by the total number of students in the teacher's classes to identify the overall percentage of students meeting the target. The percentage is then converted to a scale score of 0-20 or 0-15. This method ensures proportional accountability based on percentage of students assessed by each locally selected measure.*

### 3.16) Assurances

Please check all of the boxes below:

3.16) Assurances   Assure the application of locally-developed controls will be rigorous, fair, and transparent.	Checked
3.16) Assurances   Assure that use of locally-developed controls will not have a disparate impact on underrepresented students in accordance with any applicable civil rights laws.	Checked

3.16) Assurances   Assure that locally-selected measures are rigorous and comparable across all classrooms in the same grade/subject in the district.	Checked
3.16) Assurances   If more than one type of locally-selected measure is used for different groups of teachers within a grade/subject, certify that the measures are comparable based on the Standards of Educational and Psychological Testing.	Checked
3.16) Assurances   Assure that all locally-selected measures for a teacher are different than any measures used for the State assessment or other comparable measures subcomponent.	Checked

#### 4.1) Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on NYS Teaching Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

The "Second Rubric" space is required for districts that have chosen an observation-only rubric (CLASS or NYSTCE) from the State-approved list.

(Note: Any district may use multiple rubrics, as long as the same rubric(s) is used for all classroom teachers in a grade/subject across the district.)

*Danielson's Framework for Teaching (2011 Revised Edition)*

*Not Applicable*

#### 4.2) Points Within Other Measures

State the number of points (if any) that will be assigned to each of the following measures, making sure that the points total 60. If you are not using a particular measure, enter 0.

This APPR form only provides one space for assigning points within other measures for teachers. If your district/BOCES prefers to assign points differently for different groups of teachers, enter the points assignment for one group of teachers below. For the other group(s) of teachers, fill out copies of this form and upload as an attachment for review.

Is the following points assignment applicable to all teachers?

*Yes*

If you checked "no" above, fill in the group of teachers covered (e.g., "probationary teachers"):

*(No response)*

Multiple (at least two) classroom observations by principal or other trained administrator, at least one of which must be unannounced [at least 31 points]	60
One or more observation(s) by trained independent evaluators	(No response)
Observations by trained in-school peer teachers	(No response)
Feedback from students using State-approved survey tool	(No response)
Feedback from parents/caregivers using State-approved survey tool	(No response)
Structured reviews of lesson plans, student portfolios and other teacher artifacts	(No response)

If the above points assignment is not for "all teachers," fill out an additional copy of "Form 4.2: Points Within Other Measures" for each group of teachers, combine them into a single file, and upload as an attachment for review. Click here for a downloadable copy of Form 4.2. (MS Word)

(No response)

### 4.3) Survey Tools (if applicable)

If you indicated above that 1 or more points will be assigned to feedback using a State-approved survey tool, please check the box below:

(No response)

If the district plans to use one or more of the following surveys of P-12 students from the menu of State-approved surveys, please check all that apply. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu. Note: As the State-approved survey lists are updated, this form will be updated with additional approved survey tools.

[SurveyTools.0] Tripod Early Elementary Student Perception Survey K-2	(No response)
[SurveyTools.1] Tripod Elementary Student Perception Survey 3-5	(No response)
[SurveyTools.2] Tripod Secondary Student Perception Survey	(No response)

### 4.4) Assurances

Please check all of the boxes below:

4.4) Assurances   Assure that all NYS Teaching Standards not addressed in classroom observations are assessed at least once a year.	Checked
4.4) Assurances   Assure that the process for assigning points for the "other measures" subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators' performance in ways that improve student learning and instruction.	Checked
4.4) Assurances   Assure that it is possible for an educator to earn each point, including 0, for the "other measures" subcomponent.	Checked
4.4) Assurances   Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the district.	Checked

### 4.5) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the teacher practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

*Danielson's Framework For Teaching 2011 version and the seven New York State Teaching Standards will be evaluated each year. All 60 points will be an accumulation of evidence, observations and professional development. Only whole numbers will be used by applying conventional rounding. A conversion chart will be attached.*

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

Describe the level of performance required for each of the HEDI rating categories, consistent with the narrative descriptions in the regulations for the "other measures" subcomponent. Also describe how the points available within each HEDI category will be assigned.

<p>Highly Effective: Overall performance and results exceed NYS Teaching Standards.</p>	<p>A rating of Highly Effective is achieved by demonstrating exemplary performance in planning and preparation, classroom environment, instruction, and professional responsibilities and earning an overall score of 59.2-60 points.</p> <p>4=60  3.9=59.8  3.7=59.4  3.6=59.2  3.5=59</p>

### 6.3) Appeals Process

Pursuant to Education Law section 3012-c, a teacher may only challenge the following in an appeal:

(1) the substance of the annual professional performance review

(2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

#### *Teacher Appeal Process*

*The §3012-c appeal procedure shall constitute the exclusive means for initiating, reviewing and resolving any and all challenges and appeals related to a teacher performance review and/or improvement plan. A teacher may not resort to any other contractual grievance procedures for the resolution of challenges and appeals related to a professional performance review and/or improvement*

*plan, except as otherwise authorized by law.*

#### *APPEALS OF INEFFECTIVE or DEVELOPING RATINGS ONLY*

*Appeals of annual professional performance reviews (APPR) shall be limited only to those where the teacher has received an overall rating of ineffective or developing based on his/her single composite effectiveness score.*

#### *WHAT MAY BE CHALLENGED IN AN APPEAL*

*In an appeal, the teacher may only challenge:*

- (1) The substance of the annual professional performance review;*
- (2) the school district's adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-c;*
- (3) the adherence to the Commissioner's regulations, as applicable to such reviews;*
- (4) compliance with any applicable locally negotiated procedures applicable to annual professional performance reviews or improvement plans; and*
- (5) the school district's issuance and/or implementation of the terms of the teacher improvement plan under Education Law §3012-c.*

*A teacher may not file multiple appeals regarding the same performance review or teacher improvement plan. All grounds for appeal must be raised with specificity within one appeal. Any grounds not raised at the time the appeal is filed shall be deemed waived.*

#### *BURDEN OF PROOF*

*In an appeal, the teacher has the burden of demonstrating by clear and convincing evidence that his/her overall rating was affected by substantial error or defect.*

#### *TIME FRAME FOR FILING APPEAL*

*Appeals of an annual professional performance review must be submitted in writing no later than ten school days after receipt by the teacher or of a copy of the APPR. The failure to file an appeal within the required timeframe shall be deemed a waiver of the right to appeal and the appeal shall be deemed abandoned.*

*When filing an appeal, the teacher must submit a detailed written description of the specific areas of disagreement over his or her performance review, or the issuance and/or implementation of the terms of his or her improvement plan and any additional documents or materials relevant to the appeal. #### *TIMEFRAME FOR DISTRICT RESPONSE*

*Within 10 business days of receipt of an appeal, the school district staff members(s) who issued the performance review or were or are responsible for either the issuance and/or implementation of the terms of the teacher's improvement plan must submit a detailed written response to the appeal. The response must include any and all additional documents or written materials specific to the point(s) of disagreement that support the school district's response and are relevant to the resolution of the appeal. Any such information that is not submitted at the time the response is filed shall not be considered in the deliberations related to the resolution of the appeal. The teacher initiating the appeal shall receive a copy of the response filed by the school district, and any and all additional information submitted with the response, at the same time the school district files its response.*

#### *DECISION-MAKER ON APPEAL*

*A decision shall be rendered by the superintendent of schools or District Superintendent, as applicable, or that individual's designee, except that an appeal may not be decided by the same individual who was responsible for making the final rating decision. In such case, the superintendent shall appoint another person to decide the appeal.*

#### *DECISION*

*A written decision on the merits of the appeal shall be rendered no later than 30 calendar days from the date upon which the teacher filed his or her appeal. The appeal shall be based solely on the written record, comprised of the teacher's appeal papers and any documentary evidence accompanying the appeal, as well as the school district or response to the appeal and additional documentary evidence submitted with such papers. Such decision shall be final and binding on the parties. The decision shall not be subject to any further appeal through any other process including grievance or arbitration procedures contained within the parties' collective*

*bargaining agreement, adjudication before an administrative body or individual (including, but not limited to the Commissioner of Education) or court action.*

*The decision shall set forth the reasons and factual basis for each determination on each of the specific issues raised in the teacher's appeal. *The superintendent will ensure that all evaluators have been trained and certified in accordance with regulation. The Caledonia-Mumford Central School District will utilize training through the Genesee Valley Educational Partnership and other neighboring BOCES, which will consist of 5 to 10 full day trainings through out the year. In addition, collaborative review and analysis of observation-based evidence and other professional evidence within Danielson's 2011 Rubric will take place during administrative meetings and evaluator training meetings in order to ensure inter-rater reliability.*

*All documentation of training and development activities will be kept on file. Upon gathering ample documentation of evaluator training, the Superintendent will make a recommendation for the Board of Education to certify each evaluator.*

*Lead evaluators/evaluators will be re-certified on an annual basis and teh training will include the following requirements:*

- New York State Teaching Standards and ISSLC Standards;*
- Evidence-based observation;*

# 7. Growth on State Assessments or Comparable Measures (Principals)

Created Friday, September 07, 2012

Updated Tuesday, October 30, 2012

## Page 1

### 7.1) STATE-PROVIDED MEASURES OF STUDENT GROWTH (25 points with an approved Value-Added Measure)

For principals in buildings with Grades 4-8 ELA, Math and/or High School courses with State or Regents assessments, (or principals of programs with any of these assessments), NYSED will provide value-added measures. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

In order for a principal to receive a State-provided value-added measure, at least 30% of the students in the principal's school or program must take the applicable State or Regents assessments. This will include most schools in the State.

Value-Added measures will apply to schools or principals with the following grade configurations in this district (please list, e.g., K-5, PK-6, 6-8, 6-12, 9-12):

Pre K-5
6-8

### 7.3) STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for principals in buildings or programs in which fewer than 30% of students take Grades 4-8 ELA, Math, and/or High School courses with State or Regents assessments. SLOs will be developed using the assessment covering the most students in the school or program and continuing until at least 30% of students in the school or program are covered by SLOs. District-determined assessments from the options below may be used as evidence of student learning within the SLO:

State assessments, *required if one exists*

District, regional, or BOCES-developed assessments that are rigorous and comparable across classrooms

List of State-approved 3rd party assessments

First, list the school or program type this SLO applies to. Then, using the drop-down boxes below, please select the assessment that will be used for SLOs for the school/program listed. Finally, name the specific assessment listing the full name of the assessment. Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

***Please remember that State assessments must be used with SLOs if applicable to the school or program type.***

School or Program Type	SLO with Assessment Option	Name of the Assessment

Describe the district-adopted expectations for the level of performance required for each HEDI rating category and the process for assigning points to principals based on SLO results, consistent with regulations and assurances in the Comparable Growth Measures subcomponent. Include any district-determined expectations for student performance.

Use this box, if needed, to describe the process for assigning HEDI categories in this subcomponent. If needed, you may upload a table or graphic below.	N/A
Highly Effective (18 - 20 points) Results are well above state average for similar students (or District goals if no state test).	N/A
Effective (9 - 17 points) Results meet state average for similar students (or District goals if no state test).	N/A
Developing (3 - 8 points) Results are below state average for similar students (or District goals if no state test).	N/A
Ineffective (0 - 2 points) Results are well below state average for similar students (or District goals if no state test).	N/A

### 7.4) Special Considerations for Comparable Growth Measures

Describe any adjustments, controls, or other special considerations that will be used in setting targets for Comparable Growth Measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are those used in State Growth measures, which include: prior student achievement results, students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents.

## 7.5) Principals with More Than One Growth Measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI category and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Principals of K-8 schools with growth measures for ELA and Math grades 4-8.)

If Principals have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points and Districts will weight each in proportion to the number of students covered by the SLO to reach a combined score for this subcomponent.

## 7.6) Assurances -- Comparable Growth Measures

# 8. Local Measures (Principals)

## Page 1

### Locally-Selected Measures of Student Achievement or Growth

Locally comparable means that the same locally-selected measures of student achievement or growth must be used for all principals in the same or similar programs or grade configurations across the district or BOCES.

Please note: only one locally-selected measure is required for principals in the same or similar programs or grade configurations, but some districts may prefer to have more than one measure for principals in the same or similar programs or grade configurations. This APPR form therefore provides space for multiple locally-selected measures for each principal in the same or similar program or grade configuration across the district. Therefore, if more than one locally-selected measure is used for all principals in the same or similar program or grade configuration, districts must complete additional copies of this form and upload as attachments for review.

Also note: districts may use more than one locally-selected measure for **different** groups of principals **within the same or similar programs or grade configurations** if the district/BOCES prove comparability based on Standards of Educational and Psychological Testing. If a district is choosing different measures for different groups of principals within the same or similar programs or grade configurations, they must complete additional copies of this form and upload as attachments for review.

### 8.1) LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR PRINCIPALS WITH AN APPROVED VALUE-ADDED MEASURE (15 points)

**In the table below, list all of the grade configurations used in your district or BOCES (e.g., K-5, 6-8, 9-12). Then for each grade configuration, select a local measure from the menu.**

*Note: Districts and BOCES may select one or more types of growth or achievement measures for each grade configuration. If you are using more than one type of local measure for the evaluation of principals in a given grade configuration, list that grade configuration multiple times. If more space is needed, duplicate this portion of the form and upload additional pages (below) as an attachment.*

*The options in the drop-down menus below are abbreviated from the following list:*

- (a) student achievement levels on State assessments in ELA and/or Math in Grades 4-8 (e.g., percentage of students in the school whose performance levels on State assessments are proficient or advanced)
- (b) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students in each specific performance level (e.g., Level 1, Level 2)
- (c) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students with disabilities and English Language Learners in Grades 4-8

- (d) student performance on any or all of the district-wide locally selected measures approved for use in teacher evaluations
- (e) four, five and/or six-year high school graduation and/or dropout rates for principals employed in a school with high school grades
- (f) percentage of students who earn a Regents diploma with advanced designation and/or honors for principals employed in a school with high school grades
- (g) percentage of a cohort of students that achieve specified scores on Regents examinations and/or Department approved alternative examinations (including, but not limited to, Advanced Placement examinations, International Baccalaureate examinations, SAT II, etc.), for principals employed in a school with high school grades (e.g., the percentage of students in the 2009 cohort that scored at least a 3 on an Advanced Placement examination since entry into the ninth grade)
- (h) students' progress toward graduation in the school using strong predictive indicators, including but not limited to 9th and/or 10th grade credit accumulation and/or the percentage of students that pass 9th and/or 10th grade subjects most commonly associated with graduation and/or students' progress in passing the number of required Regents examinations for graduation, for principals employed in a school with high school grades

Grade Configuration	Locally-Selected Measure from List of Approved Measures	Assessment
K-5	(d) measures used by district for teacher evaluation	GVEP Regional Developed Grades K-5 English and Math Assessments
6-8	(d) measures used by district for teacher evaluation	GVEP Regional Developed Grades 6-8 English and Math Assessments
9-12	(e) 4, 5, and/or 6-year high school grad and/or dropout rates	4 Year Graduation Rates

Describe the district-adopted expectations for the level of growth or achievement needed for a principal to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a principal to earn any of the points in a scoring range, consistent with regulations and assurances.

*Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.*

<p>Use this box, if needed, to describe the process for assigning HEDI categories. If needed, you may upload a table or graphic below.</p>	<p>Achievement targets will be established collaboratively between the Elementary Principal and Superintendent of Schools and between the Middle School Principal and the Superintendent of Schools. Based on the data collected from the English and mathematics regionally developed pre-assessments, SMART goals for the final assessment will be established for each individual student. Based on the number of students that meet established SMART goals, principals will be assigned a 0-15 points within the HEDI rating categories as identified on the conversion chart for local assessment. The elementary principal will use grades K-5 and the middle school principal will use grades 6-8. Principals can achieve all scale points.</p> <p>The High School Principal will be assessed by using the 4 year graduation rate. Please see conversion chart.</p>
--	---

Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	When SMART goals are established for each individual student, the principal will earn a Highly Effective rating when 85-100% of the students meet their individual achievement goal.  High School Principal will earn an Highly Effective rating when 85-100% students graduate.
Effective (8- 13 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	When SMART goals are established for each individual student, the principal will earn a Effective rating when 65-84% of the students meet their individual achievement goal.  High School Principal will earn an Effective rating when 65-84% students graduate.
Developing (3 - 7 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	When SMART goals are established for each individual student, the principal will earn a Developing rating when 50-64% of the students meet their individual achievement goal.  High School Principal will earn a Developing rating when 50-64% students graduate.
Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	When SMART goals are established for each individual student, the principal will earn a Ineffective rating when 0-49% of the students meet their individual achievement goal.  High School Principal will earn an Ineffective rating when 0-49% students graduate.

## 9.7) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the principal practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

*To assure that all six 2008 ISLLC Standards are evaluated each year, we will use Multidimensional Principal Performance Rubric. The Superintendent will visit each principal's building twice and principals will submit other evidence to address the standards not covered by school visits. All 60 points will be accumulation of evidence, observations and professional development. Specifically the evaluator will review all available data and evidence as they reflect the elements in each of the six domains. A principal's overall performance can be rated at any score point from 0-60. Only whole numbers will be used by applying conventional rounding.*

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

Describe the level of performance required for each of the HEDI rating categories, consistent with the narrative descriptions in the regulations for the "other measures" subcomponent. Also describe how the points available within each HEDI category will be assigned.

Highly Effective: Overall performance and results exceed standards.	A Highly Effective rating is achieved by demonstrating exemplary performance in the following areas: creating a shared vision of learning; school culture and instructional program; safe, efficient, effective learning environment; community; integrity, fairness, ethics, and political, social, economic, legal and cultural context. The overall composite score for a rating of Highly Effective will range from 59-60.
Effective: Overall performance and results meet standards.	An Effective rating is achieved by demonstrating exemplary performance in the following areas: creating a shared vision of learning; school culture and instructional program; safe, efficient, effective learning environment; community; integrity, fairness, ethics, and political, social, economic, legal and cultural context. The overall composite score for a rating of Effective will range from 57-58.8.
Developing: Overall performance and results need improvement in order to meet standards.	A Developing rating is achieved by demonstrating exemplary performance in the following areas: creating a shared vision of learning; school culture and instructional program; safe, efficient, effective learning environment; community; integrity, fairness, ethics, and political, social, economic, legal and cultural context. The overall composite score for a rating of Developing will range from 50-56.75.

### 11.3) Appeals Process

Pursuant to Education Law section 3012-c, a principal may only challenge the following in an appeal:

(1) the substance of the annual professional performance review

(2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

#### *Principal Appeals Process*

*The §3012-c appeal procedure shall constitute the exclusive means for initiating, reviewing and resolving any and all challenges and appeals related to a principal performance review and/or improvement plan. A principal may not resort to any other contractual grievance procedures for the resolution of challenges and appeals related to a professional performance review and/or improvement plan, except as otherwise authorized by law.*

## *APPEALS OF INEFFECTIVE or DEVELOPING RATINGS ONLY*

*Appeals of annual professional performance reviews (APPR) shall be limited only to those where the principal has received an overall rating of ineffective or developing based on his/her single composite effectiveness score.*

### *WHAT MAY BE CHALLENGED IN AN APPEAL*

*In an appeal, the principal may only challenge:*

- (1) The substance of the annual professional performance review;*
- (2) the school district's adherence to the standards and methodologies required for such reviews, pursuant to Education Law §3012-c;*
- (3) the adherence to the Commissioner's regulations, as applicable to such reviews;*
- (4) compliance with any applicable locally negotiated procedures applicable to annual professional performance reviews or improvement plans; and*
- (5) the school district's issuance and/or implementation of the terms of the teacher improvement plan under Education Law §3012-c.*

### *PROHIBITION AGAINST MORE THAN ONE APPEAL*

*A principal may not file multiple appeals regarding the same performance review or principal improvement plan. All grounds for appeal must be raised with specificity within one appeal. Any grounds not raised at the time the appeal is filed shall be deemed waived.*

### *BURDEN OF PROOF*

*In an appeal, the principal has the burden of demonstrating by clear and convincing evidence that his/her overall rating was affected by substantial error or defect.*

### *TIME FRAME FOR FILING APPEAL*

*Appeals of an annual professional performance review must be submitted in writing no later than ten school days after receipt by the teacher or of a copy of the APPR. The failure to file an appeal within the required timeframe shall be deemed a waiver of the right to appeal and the appeal shall be deemed abandoned.*

*When filing an appeal, the principal must submit a detailed written description of the specific areas of disagreement over his or her performance review, or the issuance and/or implementation of the terms of his or her improvement plan and any additional documents or materials relevant to the appeal. The performance review and/or improvement plan being challenged must also be submitted with the appeal. Any information not submitted at the time the appeal is filed shall not be considered.*

### *TIMEFRAME FOR DISTRICT RESPONSE*

*Within 10 business days of receipt of an appeal, the school district staff members(s) who issued the performance review or were or are responsible for either the issuance and/or implementation of the terms of the principal's improvement plan must submit a detailed written response to the appeal. The response must include any and all additional documents or written materials specific to the point(s) of disagreement that support the school district's response and are relevant to the resolution of the appeal. Any such information that is not submitted at the time the response is filed shall not be considered in the deliberations related to the resolution of the appeal. The principal initiating the appeal shall receive a copy of the response filed by the school district, and any and all additional information submitted with the response, at the same time the school district files its response.*

### *DECISION-MAKER ON APPEAL*

*A decision shall be rendered by the superintendent of schools or District Superintendent, as applicable, or that individual's designee, except that an appeal may not be decided by the same individual who was responsible for making the final rating decision. In such case, the superintendent shall appoint another person to decide the appeal.*

### *DECISION*

*A written decision on the merits of the appeal shall be rendered no later than 30 calendar days from the date upon which the principal filed his or her appeal. The appeal shall be based solely on the written record, comprised of the principal's appeal papers and any documentary evidence accompanying the appeal, as well as the school district or response to the appeal and additional documentary evidence submitted with such papers. Such decision shall be final and binding on the parties. The decision shall not be subject to any further appeal through any other process including grievance or arbitration procedures contained within the parties' collective bargaining agreement, adjudication before an administrative body or individual (including, but not limited to the Commissioner of*

Education) or court action.

The decision shall set forth the reasons and factual basis for each determination on each of the specific issues raised in the principal's appeal. If the appeal is sustained, the reviewer may set aside a rating if it has been affected by substantial error or defect or require such other corrective action as is just and proper. A copy of the decision shall be provided to the principal and the evaluator.

#### EXCLUSIVITY OF SECTION 3012-C APPEAL PROCEDURE

The 3012-c appeal procedure shall constitute the exclusive means for initiating, reviewing and resolving any and all challenges and appeals related to a principal performance review and/or improvement plan. A principal may not resort to any other procedures for the resolution of challenges and appeals related to a professional performance review and/or improvement plan.

### 11.4) Training and Certification of Lead Evaluators and Evaluators

Describe the process by which evaluators will be trained and the process for how the district will certify and re-certify lead evaluators. Describe the process for ensuring inter-rater reliability. Describe the duration and nature of such training.

The Superintendent will be properly trained in the nine elements identified, completing training through the Genesee Valley Educational Partnership and NYSCOSS, which will consist of a number of full and part day workshops through out the year. Due to there being one sole evaluator of principals, inter-rater reliability is not an issue. However, regular interactive review and analysis of professional evidence within the Multidimensional Rubric will take place for professional growth of the Superintendent and administrative team.

All documentation of training and development activities will be kept on file. Upon gathering ample documentation that the Superintendent has been properly trained, the Superintendent will recommend to the Board of Education that he be certified to conduct principal evaluations.

Lead evaluators/evaluators will be re-certified on an annual basis and teh training will include the following requirements:

- New York State Teaching Standards and ISSLC Standards;
- Evidence-based observation;
- Application and use of student Growth Percentile and Value Added Growth Model data;
- Application and use of the State-approved teacher and principal practice rubrics;
- Application and use of any assessment tools used to evaluate teachers and principals;
- Application and use of State –approved locally selected measures of student achievement;
