

THE STATE EDUCATION DEPARTMENT / THE UNIVERSITY OF THE STATE OF NEW YORK / ALBANY, NY 12234

COMMISSIONER OF EDUCATION
PRESIDENT OF THE UNIVERSITY OF THE STATE OF NEW YORK

August 30, 2012

Dr. Kishore Kuncham, Superintendent
Freeport Union Free School District
235 N. Ocean Avenue
Freeport, NY 11520

Dear Superintendent Kuncham:

Congratulations. I am pleased to inform you that your Annual Professional Performance Review Plan (APPR) meets the criteria outlined in Education Law §3012-c and Subpart 30-2 of the Commissioner's Regulations and has been approved for the 2012-2013 school year. As a reminder, we are relying on the certification and assurances that are part of your approved APPR. If any material changes are made to your approved APPR plan, your district/BOCES must submit such material changes to us for approval.

Pursuant to Education Law §3012-c and Subpart 30-2, the Department will continue to work with districts to help ensure compliance with the statute and the regulations. We will be analyzing data supplied by districts, BOCES, and/or schools and may ask for a corrective action plan if there are unacceptably low correlation results between the student growth subcomponent and any other measures of teacher and principal effectiveness and/or if the teacher or principal scores or ratings show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results. Please be advised that, if any provisions of your APPR plan violate the statute or the regulations, the Department reserves the right to require your district to correct and/or resolve such violations.

The Department looks forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

John B. King, Sr.
Commissioner

c: Thomas Rogers

NOTE: If your district/BOCES has provided for value-added measures (15 points vs. 20 points scale and categorization of your district/BOCES's grade configurations) in your APPR and no value-added measures are approved by the Board of Regents for a grade/subject and/or grade configuration for the 2012-13 school year, your district/BOCES will be required to revise and resubmit its APPR accordingly. Conversely, if your district/BOCES has not provided for value-added measures in your district/BOCES's APPR submission and value-added measures are approved for the 2012-13 school year, your district/BOCES will be required to revise and resubmit its APPR accordingly.

2. Growth on State Assessments or Comparable Measures (Teachers)

Created Tuesday, May 22, 2012

Updated Thursday, August 30, 2012

Page 1

STATE-PROVIDED MEASURES OF STUDENT GROWTH

(25 points with an approved value-added measure)

For teachers in grades 4 - 8 Common Branch, ELA, and Math, NYSED will provide a value-added growth score. That score will incorporate students' academic history compared to similarly academically achieving students and will use special considerations for students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

While most teachers of 4-8 Common Branch, ELA and Math will have state-provided measures, some may teach other courses in addition where there is no state-provided measure. Teachers with 50 – 100% of students covered by State-provided growth measures will receive a growth score from the State for the full Growth subcomponent score of their evaluation. Teachers with 0 – 49% of students covered by State-provided growth measures must have SLOs for the Growth subcomponent of their evaluation and one SLO must use the State-provided measure if applicable for any courses. (See guidance for more detail on teachers with State-provided measures AND SLOs.)

Please note that if the Board of Regents does not approve a value-added measure for these grades/subjects for 2012-13, the State-provided growth measure will be used for 20 points in this subcomponent. NYSED will provide a HEDI subcomponent rating category and score from 0 to 20 points.

2.1) Assurances

Please check the boxes below:

2.1) Assurances Assure that the value-added growth score provided by NYSED will be used, where applicable.	Checked
2.1) Assurances Assure that the State-provided growth measure will be used if a value-added measure has not been approved for 2012-13.	Checked

STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for teachers in the following grades and subjects. (Please note that for teachers with more than one grade and subject, SLOs must cover the courses taught with the largest number of students, combining sections with common assessments, until a majority of students are covered.)

For core subjects: grades 6-8 Science and Social Studies, high school English Language Arts, Math, Science, and Social Studies courses associated in 2010-11 with Regents exams or, in the future, with other State assessments, the following must be used as the evidence of student learning within the SLO:

State assessments (or Regents or Regent equivalents), *required if one exists*

If no State assessment or Regents exam exists:

District-determined assessments from list of State-approved 3rd party assessments; or

District, regional or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

For other grades/subjects: district-determined assessments from options below may be used as evidence of student learning within the SLO:

State assessments, *required if one exists*

List of State-approved 3rd party assessments

District, regional, or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

School- or BOCES-wide, group or team results based on State assessments

Please note: If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 2.2 through 2.9, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, common branch teachers also teach 6th grade science and/or social studies and therefore would have State-provided growth measures, not SLOs; the district or BOCES does not have certain grades; the district does not offer a specific subject; etc.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

2.2) Grades K-3 ELA

Using the drop-down boxes below, please first select the assessment that will be used for SLOs for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment. State assessments must be used where applicable.

Ineffective (0 - 2 points) Results are well-below state average for similar students (or District goals if no state test).	If 0% - 15% of students will meet or exceed their target goal on the post test, then these teachers will receive a HEDI score of 0-2 as follows: 2% - 15% = 2 1% = 1 0% = 0

Developing (3 - 8 points) Results are below District goals for similar students.	If 16% - 49% of students meet or exceed their target goal on the post test or Regents examination, then these teachers will receive a HEDI score of 3-8 as follows: 21% - 49% = 8 20% = 7 19% = 6 18% = 5 17% = 4 16% = 3
Ineffective (0 - 2 points) Results are well-below District goals for similar students.	If 0% - 15% of students meet or exceed their target goal on the post test or Regents examination, then these teachers will receive a HEDI score of 0-2 as follows: 2% - 15% = 2

58% - 74% = 17
57% = 16
56% = 15
55% = 14
54% = 13
53% = 12
52% = 11
51% = 10
50% = 9

Developing (3 - 8 points) Results are below District goals for similar students.

If 16%-49% of students meet or exceed their target goal on the district-developed post-tests or State (NYSESLAT) examinations, then these teachers will receive a HEDI score of 3-8 as follows:
21% - 49% = 8
20% = 7
19% = 6
18% = 5
17% = 4
16% = 3

Ineffective (0 - 2 points) Results are well-below District goals for similar students.

If 0% - 15% of students meet or exceed their target goal on the district-developed post-tests or State (NYSESLAT) examinations, then these teachers will receive a HEDI score of 0-2 as follows:
2% - 15% = 2
1% = 1
0% = 0

2.11) HEDI Tables or Graphics

For questions 2.2 through 2.10 above, if you are using tables or other graphics to explain your general process for assigning HEDI categories, please combine all such tables or graphics into a single file, labeling each so it is clear which grades/subjects it applies to, and upload that file here.

2.12) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in setting targets for Comparable Growth Measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are those used in State Growth measures, which include: student prior academic history, students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents.

At the beginning of the 2012-2013 school year, data for each teacher will be reviewed and target goals established based on each teacher's current class roster. The SLOs will be developed district-wide by grade level and/or department area to ensure accurate teacher ratings based on students' prior academic history. Differentiated targets will be identified to allow for the needs of special

populations, including English Language Learners and Students with Disabilities. In the future, any other student, classroom, and school-level characteristics approved by the Board of Regents. In this process, teachers will identify at least one annual goal for improving student learning that will include a review and analysis of relevant data to determine student needs.

2.13) Teachers with more than one growth measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI rating and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Common branch teacher with state-provided value-added measures for both ELA and Math in 4th grades; Middle school math teacher with both 7th and 8th grade math courses.)

If educators have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points which Districts must weight proportionately based on the number of students in each SLO.

2.14) Assurances

Please check all of the boxes below:

2.14) Assurances Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.	Checked
2.14) Assurances Assure that use of locally developed controls will not have a disparate impact on underrepresented students in accordance with applicable civil rights laws.	Checked
2.14) Assurances Assure that enrolled students in accordance with teacher of record policies are included and may not be excluded.	Checked
2.14) Assurances Assure that procedures for ensuring data accuracy and integrity are being utilized.	Checked
2.14) Assurances Assure that district will develop SLOs according to the rules established by SED (see: http://usny.nysed.gov/rttt/teachers-leaders/slo/home.html).	Checked
2.14) Assurances Assure that past academic performance and/or baseline academic data of students will be taken into account when developing an SLO.	Checked
2.14) Assurances Assure that the process for assigning points for SLOs for the Growth Subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators in ways that improve student learning and instruction.	Checked
2.14) Assurances Assure that it is possible for an educator to earn each point, including 0, for SLOs in the Growth subcomponent scoring range.	Checked
2.14) Assurances Assure that processes are in place to monitor SLOs to ensure rigor and comparability across classrooms.	Checked

Locally Selected Measures of Student Achievement or Growth

"Comparable across classrooms" means that the same locally-selected measures of student achievement or growth must be used across all classrooms in the same grade/subject in the district or BOCES.

Please note: If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 3.1 through 3.11, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, the district does not have certain grades, the district does not offer a specific subject, etc.

Locally selected measures for common branch teachers: This form calls for locally selected measures in both ELA and math in grades typically served by common branch teachers. Districts may select local measures for common branch teachers that involve subjects other than ELA and math. Whatever local measure is selected for common branch teachers, please enter it under ELA and/or math and describe the assessment used, including the subject. Use N/A for other lines in that grade level that are served by common branch teachers. Describe the HEDI criteria for the measure in the same section where you identified the locally selected measure and assessment.

.Please note: Only one locally-selected measure is required for teachers in the same grade/subject across the district, but some districts may prefer to have more than one measure for all teachers within a grade/subject. Also note: Districts may use more than one locally-selected measure for **different** groups of teachers **within a grade/subject** if the district/BOCES verifies comparability based on Standards of Educational and Psychological Testing. This APPR form only provides space for one measure for teachers in the same grade/subject across the district. Therefore, if more than one locally-selected measure is used for all teachers in any grades or subject, districts must complete additional copies of this form and upload as attachments for review.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR TEACHERS IN GRADES FOR WHICH THERE IS AN APPROVED VALUE-ADDED MEASURE (15 points)

Growth or achievement measure(s) from these options.

One or more of the following types of local measures of student growth or achievement may be used for the evaluation of teachers.

The options in the drop-down menus below are abbreviated from the following list:

Measures based on:

1) The change in percentage of a teacher’s students who achieve a specific level of performance as determined locally, on such assessments/examinations compared to those students’ level of performance on such assessments/examinations in the previous school year (e.g., a three percentage point increase in students earning the proficient level (three) or better performance level on the 7th grade math State assessment compared to those same students’ performance levels on the 6th grade math State assessment, or an increase in the percentage of a teacher’s students earning the advanced performance level (four) on the 4th grade ELA or math State assessments compared to those students’ performance levels on the 3rd grade ELA or math State assessments)

2) Teacher specific growth score computed by the Department based on the percent of the teacher’s students earning a State determined level of growth. The methodology to translate such growth into the State-established sub-component scoring ranges shall be determined locally

3) Teacher specific achievement or growth score computed in a manner determined locally based on a measure of student performance on the State assessments, Regents examinations and/or Department approved alternative examinations other than the measure described in subclause 1) or 2) of this clause

4) Student growth or achievement computed in a manner determined locally based on a State-approved 3rd party assessment

5) Student growth or achievement computed in a manner determined locally based on a district, regional or BOCES-developed assessment that is rigorous and comparable across classrooms

6) A school-wide measure of either student growth or achievement based on either:

(i) A State-provided student growth score covering all students in the school that took the State assessment in ELA or Math in Grades 4-8; or

(ii) A school-wide measure of student growth or achievement computed in a manner determined locally based on a State, State-approved 3rd party, or district, regional or BOCES developed assessment that is rigorous and comparable across classrooms.

3.1) Grades 4-8 ELA

Using the drop-down boxes below, select the assessment that will be used for the locally-selected measure for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment.

3.13) HEDI Tables or Graphics

For questions 3.4 through 3.12 above, if you are using tables or other graphics to explain your general process for assigning HEDI categories, please combine all such tables or graphics into a single file, labeling each so it is clear which grades/subjects it applies to, and upload that file here.

3.14) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in setting targets for local measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

At the beginning of the 2012-2013 school year, data for each teacher will be reviewed and target goals established based on each teacher's current class roster. The SLOs will be developed district-wide by grade level and/or department area to ensure accurate teacher ratings based on students' prior academic history. Differentiated targets will be identified to allow for the needs of special populations, including English Language Learners and Students with Disabilities. In this process, teachers will identify at least one annual goal for improving student learning that will include a review and analysis of relevant data to determine student needs.

3.15) Teachers with More Than One Locally Selected Measure

Describe the district's process for combining multiple locally selected measures, each scored from 0-15 or 0-20 points as applicable, into a single subcomponent HEDI category and score. Examples may include: 4th grade teacher with locally-selected measures for both ELA and Math; High School teacher with more than 1 SLO.

A teacher with more than one locally selected measure will be holistically rated. A weighted average of scores on all local measures will determine the teacher's final HEDI score.

3.16) Assurances

Please check all of the boxes below:

3.16) Assurances | Assure the application of locally-developed controls will be rigorous, fair, and transparent. Checked

3.16) Assurances Assure that use of locally-developed controls will not have a disparate impact on underrepresented students in accordance with any applicable civil rights laws.	Checked
3.16) Assurances Assure that enrolled students in accordance with teacher of record policies are included and may not be excluded.	Checked
3.16) Assurances Assure that procedures for ensuring data accuracy and integrity are being utilized.	Checked

3.16) Assurances Assure that it is possible for an educator to earn each point, including 0, for the locally-selected measures subcomponent.	Checked
3.16) Assurances Assure that locally-selected measures are rigorous and comparable across all classrooms in the same grade/subject in the district.	Checked
3.16) Assurances If more than one type of locally-selected measure is used for different groups of teachers within a grade/subject, certify that the measures are comparable based on the Standards of Educational and Psychological Testing.	Checked
3.16) Assurances Assure that all locally-selected measures for a teacher are different than any measures used for the State assessment or other comparable measures subcomponent.	Checked

4. Other Measures of Effectiveness (Teachers)

Page 1

4.1) Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on NYS Teaching Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

The "Second Rubric" space is required for districts that have chosen an observation-only rubric (CLASS or NYSTCE) from the State-approved list.

(Note: Any district may use multiple rubrics, as long as the same rubric(s) is used for all classroom teachers in a grade/subject across the district.)

4.2) Points Within Other Measures

State the number of points (if any) that will be assigned to each of the following measures, making sure that the points total 60. If you are not using a particular measure, enter 0.

This APPR form only provides one space for assigning points within other measures for teachers. If your district/BOCES prefers to assign points differently for different groups of teachers, enter the points assignment for one group of teachers below. For the other group(s) of teachers, fill out copies of this form and upload as an attachment for review.

Is the following points assignment applicable to all teachers?

Yes

If you checked "no" above, fill in the group of teachers covered (e.g., "probationary teachers"):

(No response)

Multiple (at least two) classroom observations by principal or other trained administrator, at least one of which must be unannounced [at least 31 points]	60
One or more observation(s) by trained independent evaluators	0
Observations by trained in-school peer teachers	0
Feedback from students using State-approved survey tool	0
Feedback from parents/caregivers using State-approved survey tool	0
Structured reviews of lesson plans, student portfolios and other teacher artifacts	0

If the above points assignment is not for "all teachers," fill out an additional copy of "Form 4.2: Points Within Other Measures" for each group of teachers, combine them into a single file, and upload as an attachment for review. Click here for a downloadable copy of Form 4.2. (MS Word)

4.3) Survey Tools (if applicable)

If you indicated above that 1 or more points will be assigned to feedback using a State-approved survey tool, please check the box below:

(No response)

If the district plans to use one or more of the following surveys of P-12 students from the menu of State-approved surveys, please check all that apply. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu. Note: As the State-approved survey lists are updated, this form will be updated with additional approved survey tools.

4.4) Assurances

Please check all of the boxes below:

4.4) Assurances Assure that all NYS Teaching Standards not addressed in classroom observations are assessed at least once a year.	Checked
4.4) Assurances Assure that the process for assigning points for the "other measures" subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators' performance in ways that improve student learning and instruction.	Checked
4.4) Assurances Assure that it is possible for an educator to earn each point, including 0, for the "other measures" subcomponent.	Checked
4.4) Assurances Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the district.	Checked

4.5) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the teacher practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

The process of selecting the rubric for the teachers' evaluation was negotiated between the District and the Freeport Teachers Association(FTA). It was agreed that the NYSUT Rubric will be used for the Other Measures of Effectiveness. The NYSUT Rubric consists of seven (7) domains. Each domain is assigned the following points: Domain I = 10 points; Domain II =10 points; Domain III = 15 points; Domain IV =10 points; Domain V = 5 points; Domain VI = 5 points and Domain VII = 5 points. Within each domain there are varying numbers of functions. Each function is weighted equally within each domain. The maximum possible score points awarded is 400, with a minimum of 100.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

(No response)

Describe the level of performance required for each of the HEDI rating categories, consistent with the narrative descriptions in the regulations for the "other measures" subcomponent. Also describe how the points available within each HEDI category will be assigned.

6.1) Assurances -- Improvement Plans

Please check the boxes below:

6.1) Assurances -- Improvement Plans Assure that teachers who receive a Developing or Ineffective rating will receive a Teacher Improvement Plan (TIP) within 10 school days from the opening of classes in the school year following the performance year	Checked
6.1) Assurances -- Improvement Plans Assure that TIP plans shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a teacher's improvement in those areas	Checked

6.3) Appeals Process

Pursuant to Education Law section 3012-c, a teacher may only challenge the following in an appeal:

(1) the substance of the annual professional performance review

(2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

The following appeal process was negotiated between the Freeport School District and the Freeport Teachers Association for tenured teachers who have been rated "ineffective" for two consecutive years.

Appeal of Teacher Evaluation

The following appeal process was negotiated between the Freeport Schools and the Freeport Teachers Association for tenured teachers who have been rated “ineffective” for two consecutive years.

Appeal of Teacher Evaluation

a. The second consecutive “ineffective” annual evaluation shall be presented to the teacher at a meeting between the administrator and the teacher by September 1st.

b. Within five (5) business days of the receipt of the final annual summative from the administrator, the teacher may appeal the summative evaluation, in writing, to the building administrator. The appeal must be hand delivered to the building administrator, and the administrator must date and time stamp it.

c. The written appeal shall articulate in detail the basis of the appeal to the building administrator. As set forth in Section 3012-c of the Education Law, the evaluated teacher may only challenge:

- i. the school district’s adherence to the standards and methodologies required for such review pursuant to Section 3012-c of the Education Law;*
- ii. the school district’s adherence to the Regulations of the Commissioner and compliance with and/or implementation of the terms of the administrator’s improvement plan;*
- iii. the school district’s adherence to the timelines as outlined in the APPR document.*

d. Within five (5) business days of receipt of the appeal, the building administrator shall render his or her determination, in writing, with respect to the appeal. These time frames may be extended by mutual agreement of the parties. But every effort will be made to conduct the appeal in a timely and expeditious manner.

e. If the appeal is not settled at step d, or an answer has not been received by the teacher in the given time specified in step d, the teacher may within five business days submit the same in writing to the Committee on Appeals. This committee shall consist of the Assistant Superintendent for Personnel or designee, the Assistant Superintendent of Curriculum or designee, the FTA President or designee, the FTA Grievance Chairperson, or a designee of the President, on the part of the Union. A fifth person will be chosen randomly from a predetermined pool of two administrators and two FTA members. The committee will meet for the purpose of resolving the appeal with the following two exceptions:

a. Exception 1: If a second consecutive summative evaluation results in an ineffective rating and the administrator does not meet two or more deadlines, without any extenuating reasons, then the District and the Freeport Teachers Association will agree not to move forward with the 3020-a process. The TIP plan will remain in effect for another year.

f. The committee will meet and render its decision within ten business days of notification of the appeal.

g. If the committee fails to resolve the appeal, the appeal will be forwarded to the Superintendent of Schools or designee who will have ten (10) business days to render a decision.

h. The decision of the Superintendent of Schools or designee shall not be grievable, arbitrable, or reviewable in any other forum.

i. Notwithstanding the aforementioned language, nothing herein shall be construed as limiting the right of the employee to challenge said evaluation in any proceeding brought pursuant to Education Law section 3020-a. However, the appeal process in its entirety will be in compliance with Education Law 3012-c.

j. Performance ratings of “ineffective” are the only ratings subject to appeal. Teachers who receive a rating of “highly effective”, “effective” or “developing” shall not be permitted to appeal their rating. Teachers are permitted to attach a rebuttal.

k. Non-tenured teachers shall not be permitted to appeal any aspect of their annual evaluation, or the school district’s issuance and/or implementation of the terms of a teacher’s improvement plan.

6.4) Training and Certification of Lead Evaluators and Evaluators

Describe the process by which evaluators will be trained and the process for how the district will certify and re-certify lead evaluators. Describe the process for ensuring inter-rater reliability. Describe the duration and nature of such training.

Beginning September 2011 and throughout the 2011-2012 school year, all lead evaluators/evaluators participated in ongoing trainings provided by certified Nassau BOCES Network Team personnel in order to complete teacher observations and evaluations.

The evaluator trainings have occurred regionally and replicate the recommended SED model certification process incorporating per the 3012c regulations. Additionally, all teacher lead evaluators and evaluators are currently completing five consecutive days of training on the NYSUT rubric, the selected teacher rubric. On an annual basis, all lead evaluators/evaluators will receive additional trainings to ensure that all maintain inter-rater reliability and will be recertified by the Board of Education. These trainings have and will continue to include the following Requirements for Lead Evaluators:

- i. New York State Teaching Standards and their related elements performance indicators*
- ii. Evidence-based observation techniques that are grounded in research*
- iii. Application and use of Student Growth Percentile and Value Added Growth Model data*
- iv. Application and use of the State-approved teacher rubrics*
- v. Application and use of any assessments tools used to evaluate teachers*
- vi. Application and use of State-approved locally selected measures of student achievement (NWEA)*
- vii. Use of Statewide Instructional Reporting System*
- viii. Scoring methodology used to evaluate teachers*
- ix. Specific considerations in evaluating teachers of ELLS and students with disabilities*
- x. Training methodology to ensure inter-rating reliability*

b. Evaluation Team: the team consists of those persons who may be involved in the input/evaluation process of the teacher.

c. Periodic in-service sessions will be conducted to familiarize all members of the evaluation team with the procedures and materials used in the system.

d. Simulation will be used to provide common, controlled experiences for sharpening skills. Educational materials will be drawn from several sources. Subsequent workshops should be built on relevant operational experiences of observers/evaluators.

7. Growth on State Assessments or Comparable Measures (Principals)

Created Monday, June 11, 2012

Updated Thursday, August 30, 2012

Page 1

7.1) STATE-PROVIDED MEASURES OF STUDENT GROWTH (25 points with an approved Value-Added Measure)

For principals in buildings with Grades 4-8 ELA, Math and/or High School courses with State or Regents assessments, (or principals of programs with any of these assessments), NYSED will provide value-added measures. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

In order for a principal to receive a State-provided value-added measure, at least 30% of the students in the principal's school or program must take the applicable State or Regents assessments. This will include most schools in the State.

Value-Added measures will apply to schools or principals with the following grade configurations in this district (please list, e.g., K-5, PK-6, 6-8, 6-12, 9-12):

Grades 5 & 6
Grades 7 & 8
Grades 9-12

7.3) STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for principals in buildings or programs in which fewer than 30% of students take Grades 4-8 ELA, Math, and/or High School courses with State or Regents assessments. SLOs will be developed using the assessment covering the most students in the school or program and continuing until at least 30% of students in the school or program are covered by SLOs. District-determined assessments from the options below may be used as evidence of student learning within the SLO:

State assessments, *required if one exists*

District, regional, or BOCES-developed assessments that are rigorous and comparable across classrooms

List of State-approved 3rd party assessments

First, list the school or program type this SLO applies to. Then, using the drop-down boxes below, please select the assessment that will be used for SLOs for the school/program listed. Finally, name the specific assessment listing the full name of the assessment. Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

Please remember that State assessments must be used with SLOs if applicable to the school or program type.

School or Program Type	SLO with Assessment Option	Name of the Assessment
Four K-4 Magnet Schools	State-approved 3rd party assessment	Measures of Academic Progress (NWEA) for ELA and Math
Kindergarten Childhood Center	State-approved 3rd party assessment	Measures of Academic Progress for the Primary Grades (ELA) for ELA and Math

Describe the district-adopted expectations for the level of performance required for each HEDI rating category and the process for assigning points to principals based on SLO results, consistent with regulations and assurances in the Comparable Growth Measures subcomponent. Include any district-determined expectations for student performance.

Use this box, if needed, to describe the process for assigning HEDI categories in this subcomponent. If needed, you may upload a table or graphic below.	The process for assigning HEDI ratings has been completed collaboratively with the Freeport Administrators' Association and is in alignment with the teachers' HEDI ratings.
Highly Effective (18 - 20 points) Results are well above state average for similar students (or District goals if no state test).	75% - 100% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score 18-20 as follows: 77% - 100% = 20 points 76% = 19 points 75% = 18 points
Effective (9 - 17 points) Results meet state average for similar students (or District goals if no state test).	50% - 74% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score of 9-17 as follows: 58% - 74% = 17 57% = 16 56% = 15 55% = 14 54% = 13 53% = 12 52% = 11 51% = 10 50% = 9
Developing (3 - 8 points) Results are below state average for similar students (or District goals if no state test).	16% - 49% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score of

3-8 as follows:

21% - 49% = 8

20% = 7

19% = 6

18% = 5

17% = 4

16% = 3

Ineffective (0 - 2 points) Results are well below state average for similar students (or District goals if no state test).

0% - 15% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score of 0-2 as follows:

2% - 15% = 2

1% = 1

0% = 0

If you are using tables or other graphics to explain your process for assigning HEDI categories, please clearly label them, combine them into a single file, and upload that file here.

7.4) Special Considerations for Comparable Growth Measures

Describe any adjustments, controls, or other special considerations that will be used in setting targets for Comparable Growth Measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are those used in State Growth measures, which include: prior student achievement results, students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents.

Differentiated targets will be identified to allow for the needs of special populations, including English Language Learners and Students with Disabilities.

7.5) Principals with More Than One Growth Measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI category and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Principals of K-8 schools with growth measures for ELA and Math grades 4-8.)

If Principals have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points and Districts will weight each in proportion to the number of students covered by the SLO to reach a combined score for this subcomponent.

7.6) Assurances -- Comparable Growth Measures

Please check all of the boxes below:

7.6) Assurances -- Comparable Growth Measures | Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.

8. Local Measures (Principals)

Created Tuesday, May 22, 2012

Updated Thursday, August 30, 2012

Page 1

Locally-Selected Measures of Student Achievement or Growth

Locally comparable means that the same locally-selected measures of student achievement or growth must be used for all principals in the same or similar programs or grade configurations across the district or BOCES.

Please note: only one locally-selected measure is required for principals in the same or similar programs or grade configurations, but some districts may prefer to have more than one measure for principals in the same or similar programs or grade configurations. This APPR form therefore provides space for multiple locally-selected measures for each principal in the same or similar program or grade configuration across the district. Therefore, if more than one locally-selected measure is used for all principals in the same or similar program or grade configuration, districts must complete additional copies of this form and upload as attachments for review.

Also note: districts may use more than one locally-selected measure for **different** groups of principals **within the same or similar programs or grade configurations** if the district/BOCES prove comparability based on Standards of Educational and Psychological Testing. If a district is choosing different measures for different groups of principals within the same or similar programs or grade configurations, they must complete additional copies of this form and upload as attachments for review.

8.1) LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR PRINCIPALS WITH AN APPROVED VALUE-ADDED MEASURE (15 points)

In the table below, list all of the grade configurations used in your district or BOCES (e.g., K-5, 6-8, 9-12). Then for each grade configuration, select a local measure from the menu.

Note: Districts and BOCES may select one or more types of growth or achievement measures for each grade configuration. If you are using more than one type of local measure for the evaluation of principals in a given grade configuration, list that grade configuration multiple times. If more space is needed, duplicate this portion of the form and upload additional pages (below) as an attachment.

The options in the drop-down menus below are abbreviated from the following list:

- (a) student achievement levels on State assessments in ELA and/or Math in Grades 4-8 (e.g., percentage of students in the school whose performance levels on State assessments are proficient or advanced)
- (b) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students in each specific performance level (e.g., Level 1, Level 2)
- (c) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students with disabilities and English Language Learners in Grades 4-8

- (d) student performance on any or all of the district-wide locally selected measures approved for use in teacher evaluations
- (e) four, five and/or six-year high school graduation and/or dropout rates for principals employed in a school with high school grades
- (f) percentage of students who earn a Regents diploma with advanced designation and/or honors for principals employed in a school with high school grades
- (g) percentage of a cohort of students that achieve specified scores on Regents examinations and/or Department approved alternative examinations (including, but not limited to, Advanced Placement examinations, International Baccalaureate examinations, SAT II, etc.), for principals employed in a school with high school grades (e.g., the percentage of students in the 2009 cohort that scored at least a 3 on an Advanced Placement examination since entry into the ninth grade)
- (h) students' progress toward graduation in the school using strong predictive indicators, including but not limited to 9th and/or 10th grade credit accumulation and/or the percentage of students that pass 9th and/or 10th grade subjects most commonly associated with graduation and/or students' progress in passing the number of required Regents examinations for graduation, for principals employed in a school with high school grades

Grade Configuration	Locally-Selected Measure from List of Approved Measures	Assessment
5-6	(d) measures used by district for teacher evaluation	Measures of Academic Progress (NWEA) for ELA and Math
7-8	(d) measures used by district for teacher evaluation	Measures of Academic Progress (NWEA) for ELA and Math
9-10	(d) measures used by district for teacher evaluation	Measures of Academic Progress (NWEA) for ELA
9-12	(g) % achieving specific level on Regents or alternatives	All New York State Regents examinations for achievement
9-12	(d) measures used by district for teacher evaluation	District-developed grade/subject-specific assessments for achievement

Describe the district-adopted expectations for the level of growth or achievement needed for a principal to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a principal to earn any of the points in a scoring range, consistent with regulations and assurances.

Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.

Use this box, if needed, to describe the process for assigning HEDI categories. If needed, you may upload a table or graphic below.	The process for assigning the HEDI ratings was completed in collaboration with the Freeport Administrators' Association and is in alignment with the teachers' HEDI ratings
Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	75% - 100% of students will meet their target goals or pass their post-tests with 65 or higher. These principals will receive a HEDI score of 14-15 as follows: 77% - 100% = 15 points; 75%-76% = 14 points
Effective (8- 13 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	50% - 74% of students will meet their target goals or pass their post-tests with 65 or higher. These principals will receive a HEDI score of 8-13 as follows: 58% - 74% = 13

57% = 12
56% = 11
55% = 10
54% = 9
50% - 53% = 8

Developing (3 - 7 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.

16% - 49% of students will meet their target goals or pass their post-tests with 65 or higher. These principals will receive a HEDI score of 3-7 as follows:

21% - 49% = 7
20% = 6
19% = 5
18% = 4
16% - 17% = 3

Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.

0% - 15% of students will meet their target goals or pass their post-tests with 65 or higher. These principals will receive a HEDI score of 0-2 as follows:

2% - 15% = 2
1% = 1
0% = 0

(d) student performance on any or all of the district-wide locally selected measures approved for use in teacher evaluations

(e) four, five and/or six-year high school graduation and/or dropout rates for principals employed in a school with high school grades

(f) percentage of students who earn a Regents diploma with advanced designation and/or honors for principals employed in a school with high school grades

(g) percentage of a cohort of students that achieve specified scores on Regents examinations and/or Department approved alternative examinations (including, but not limited to, Advanced Placement examinations, International Baccalaureate examinations, SAT II, etc.), for principals employed in a school with high school grades (e.g., the percentage of students in the 2009 cohort that scored at least a 3 on an Advanced Placement examination since entry into the ninth grade)

(h) students' progress toward graduation in the school using strong predictive indicators, including but not limited to 9th and/or 10th grade credit accumulation and/or the percentage of students that pass 9th and/or 10th grade subjects most commonly associated with graduation and/or students' progress in passing the number of required Regents examinations for graduation, for principals employed in a school with high school grades

(i) student learning objectives (only allowable for principals in programs/buildings without a Value-Added measure for the State Growth subcomponent). Used with one of the following assessments: State, State-approved 3rd party, or a District, regional, or BOCES-developed assessment that is rigorous and comparable across classrooms

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.

Grade Configuration	Locally-Selected Measure from List of Approved Measures	Assessment
K	(d) measures used by district for teacher evaluation	District-developed grade kindergarten assessments for both ELA and Math
K-4	(d) measures used by district for teacher evaluation	District-developed grade specific assessments for both ELA and Math

Describe the district-adopted expectations for the level of growth or achievement needed for a principal to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a principal to earn any of the points in a scoring range, consistent with regulations and assurances.

Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.

Use this box, if needed, to describe the process for assigning HEDI categories. If needed, you may upload a table or graphic below.	The process for assigning the HEDI ratings was completed in collaboration with the Freeport Administrators' Association and is in alignment with the teachers' HEDI ratings.
-------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Highly Effective (18 - 20 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	75% - 100% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score of 18-20 as follows: 77% - 100% = 20 points; 76% = 19 points 75% = 18 points
Effective (9- 17 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	50% - 74% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score of 9-17 as follows: 58% - 74% = 17 57% = 16 56% = 15 55% = 14 54% = 13 53% = 12 52% = 11 51% = 10 50% = 9
Developing (3 - 8 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	16% - 49% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score of 3-8 as follows: 21% - 49% = 8 20% = 7 19% = 6 18% = 5 17% = 4 16% = 3
Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	0% - 15% of students will meet or exceed their target goals on the post tests. These principals will receive a HEDI score of 0-2 as follows: 2% - 15% = 2 1% = 1 0% = 0

8.3) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in setting targets for local measures, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

At the beginning of the 2012-2013 school year, data for each school will be reviewed by the building principals in collaboration with their teachers. Target goals will be established based on each school's needs. This is a district requirement that has always existed and will continue to guide goal setting for principals and teachers. The SLOs will be developed district-wide by grade level and/or

department area to ensure accurate principal ratings based on students' prior academic history. Differentiated targets will be identified to allow for the needs of special populations, including English Language Learners and Students with Disabilities. Additional consideration will be given for students whose primary language is other than English and especially for Students with Interrupted Formal Education (SIFE). Prior achievement data will be reviewed for all general education and subgroups to ensure a fair and equitable rating system.

8.4) Principals with More Than One Locally Selected Measure

Describe the district's process for combining multiple locally selected measures where applicable for principals, each scored from 0-15 or 0-20 points as applicable, into a single subcomponent HEDI category and score.

For the high school, more than one measure will be used for the principal's HEDI ratings. We will be using the Measures for Academic Progress (NWEA) for English language arts for grades 9 and 10 and New York State Regents assessments for grades 9-12 in all subject areas. In subjects that do not end with a Regents examination, district-developed assessments will be used to determine the level of student achievement. A weighted average of all the results of the measures will be used for the HEDI ratings.

Some districts may prefer to assign points differently for different groups of principals. This APPR form only provides one space for assigning points within other measures for principals. If your district/BOCES prefers to assign points differently for different groups of principals, enter the points assignment for one group of principals below. For the other group(s) of principals, fill out copies of this form and upload as an attachment for review.

9.7) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the principal practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

The process of selecting the rubric for the principals' evaluation was negotiated between the District and the Freeport Schools Administrators' Association(FSAA). It was agreed that the Marshall Rubric will be used for the Principals' Other Measures of Effectiveness. The Marshall Rubric has six (6) domains and within each domain there are ten (10) elements each worth 1-4 points. The maximum points that a principal can receive for all domains is 240, and a minimum of 60.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

11.3) Appeals Process

Pursuant to Education Law section 3012-c, a principal may only challenge the following in an appeal:

(1) the substance of the annual professional performance review

(2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

Appeals of Annual The following appeal process was negotiated between the Freeport School District and the Freeport School Administrators' Association on November 15, 2010.

Appeal of Principal Evaluation

1. The draft annual evaluation shall be presented to the principal at a meeting between the administrator and the Superintendent of Schools, on a date selected by the Superintendent of Schools.

2. Within five (5) business days of the receipt of a draft of a principal's annual evaluation from the Superintendent of Schools, the administrator may appeal the draft evaluation, in writing to the Superintendent of Schools or his designee.

3. The appeal writing shall articulate in detail the basis of the appeal to the Superintendent of Schools or his designee. As set forth in Section 3012-c of the Education Law, the evaluated administrator may only challenge:

- the substance of the annual professional performance review;
- the school district's adherence to the standards and methodologies required for such review pursuant to Section 3012-c of the Education Law;
- the school district's adherence to the Regulations of the Commissioner and compliance and/or implementation of the terms of the administrator's improvement plan.

4. Within five (5) business days of receipt of the appeal, the Superintendent of Schools or his designee shall render a final and binding determination, in writing, respecting the appeal. These time frames may be extended by mutual agreement of the parties. But every effort will be made to conduct the appeal in a timely and expeditious manner.

5. The determination of the Superintendent of Schools or his designee shall not be grievable, arbitrable, or reviewable in any other forum. However, the appeal process in its entirety will be in compliance with education Law 3012-c.

6. Performance ratings of "ineffective" and "developing" are the only ratings subject to appeal. Administrators who receive a rating of "highly effective" or "effective" shall not be permitted to appeal their rating.

7. Non-tenured administrators shall not be permitted to appeal any aspect of their annual evaluation, or the school district's issuance and/or implementation of the terms of an administrator's improvement plan.

8. "Business days" shall include the summer recess period.

9. New Section – Conflicts:

Nothing contained in this labor agreement shall conflict with, nor be determined to conflict with, the annual professional performance review Regulations of the Commissioner of Education which have been and may hereafter be issued, nor with the provisions of Section 3012-c of the Education Law of the State of New York, and any amendments thereto. If it is determined by the Commissioner of Education or a final court of competent jurisdiction that a conflict exists, the law and the aforesaid Regulations shall govern.

11.4) Training and Certification of Lead Evaluators and Evaluators

Lead Evaluators/Evaluators also attended additional trainings provided by Leadership for Educational Achievement Foundation, Inc. (LEAF) and the New York State Council of School Superintendents (NYSCOSS). These trainings replicated the recommended SED model certification process per the 3012c regulations. These training have included the following Requirements for Lead Evaluators:

- i. ISLLC Standards
- ii. Evidence-based observation
- iii. Application and use of Student Growth Percentile and Value Added Growth Model data
- iv. Application and use of the State-approved principal's rubrics

- vii. Use of Statewide instructional Reporting System
- viii. Scoring methodology used to evaluate principals
- ix. Specific considerations in evaluating principals of ELLS and students with disabilities
- x. Training methodology to ensure inter-rating reliability

- a. *The team consists of those persons who may be involved in the input/evaluation process of the principal and other appropriate supervisory personnel.*
- b. *Periodic in-service sessions will be conducted to familiarize all members of the evaluation team with the procedures and materials used in the system.*
- c. *Simulation will be used to provide common, controlled experiences for sharpening skills. Educational materials will be drawn from several sources. Subsequent workshops should be built on relevant operational experiences of observers/evaluators.*
