Erin Woods, Superintendent  
Lisbon Central School District  
6866 County Route 10  
Lisbon, NY 13658

Dear Superintendent Woods

Congratulations. I am pleased to inform you that your Annual Professional Performance Review Plan (APPR) meets the criteria outlined in Education Law §3012-c and Subpart 30-2 of the Commissioner's Regulations and has been approved. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR. If any material changes are made to your approved APPR plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-c, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the student growth subcomponent and any other measures of teacher and principal effectiveness and/or if the teacher or principal scores or ratings show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

MaryEllen Elia  
Commissioner

## 2. Growth on State Assessments or Comparable Measures (Teachers)

Created: 04/30/2013

Last updated: 07/22/2015

For guidance on the State Growth or Comparable Measures subcomponent, see NYSED APPR Guidance sections D, F, and I. NYSED APPR Guidance is posted on [www.EngageNY.org](http://www.EngageNY.org) at <https://www.engageny.org/resource/guidance-on-new-york-s-annual-professional-performance-review-law-and-regulations/>.

### Page 1

#### **STATE-PROVIDED MEASURES OF STUDENT GROWTH**

##### **(25 points with an approved value-added measure)**

For teachers in grades 4 - 8 Common Branch, ELA, and Math, NYSED will provide a value-added growth score. That score will incorporate students' academic history compared to similarly academically achieving students and will use special considerations for students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

While most teachers of 4-8 Common Branch, ELA and Math will have State-provided measures, some may teach other courses where there is no State-provided measure. Teachers with 50 – 100% of students covered by State-provided growth measures will receive a growth score from the State for the full Growth subcomponent score of their evaluation. Teachers with 0 – 49% of students covered by State-provided growth measures must have SLOs for the Growth subcomponent of their evaluation and one SLO must use the State-provided measure if applicable for any courses. (See Guidance for more detail on teachers with State-provided measures AND SLOs.)

Please note that if the Board of Regents does not approve a value-added measure for these grades/subjects, the State-provided growth measure will be used for 20 points in this subcomponent. NYSED will provide a HEDI subcomponent rating category and score from 0 to 20 points.

#### **2.1) Assurances**

Please check the boxes below:

Assure that the value-added growth score provided by NYSED will be used, where applicable.	Checked
Assure that the State-provided growth measure will be used if a value-added measure has not been approved.	Checked

#### **STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)**

Student Learning Objectives will be the other comparable growth measures for teachers in the following grades and subjects. (Please note that for teachers with more than one grade and subject, SLOs must cover the courses taught with the largest number of students, combining sections with common assessments, until a majority of students are covered.)

**For core subjects: grade 8 Science, high school English Language Arts, Math, Science, and Social Studies courses associated in 2010-11 with Regents exams or, in the future, with other State assessments, the following must be used as the evidence of student learning within the SLO:**

- State assessments (or Regents or Regent equivalents), *required if one exists*

*If no State assessment or Regents exam exists:*

- District-determined assessments from list of State-approved 3<sup>rd</sup> party assessments; or
- District, regional or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

**For other grades/subjects: district-determined assessments from options below may be used as evidence of student learning within the SLO:**

- State assessments, *required if one exists*
- List of State-approved 3<sup>rd</sup> party assessments
- District, regional, or BOCES-developed assessments provided that it is rigorous and comparable across classrooms
- School- or BOCES-wide, group or team results based on State assessments

**Please note:** If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 2.2 through 2.9, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, common branch teachers also teach 6th grade science and/or social studies and therefore would have State-provided growth measures, not SLOs; the district or BOCES does not have certain grades; the district does not offer a specific subject; etc.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: "[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment." For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: "GVEP-Developed Grade 7 Social Studies Assessment."

## 2.2) Grades K-3 ELA

Using the drop-down boxes below, please first select the assessment that will be used for SLOs for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment. State assessments must be used where applicable. ### 2.13) Teachers with more than one growth measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI rating and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Common branch teacher with state-provided value-added measures for both ELA and Math in 4th grades; Middle school math teacher with both 7th and 8th grade math courses.)

If educators have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points which Districts must weight proportionately based on the number of students in each SLO.

### 2.14) Assurances

Please check all of the boxes below:

Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.	Checked
Assure that use of locally developed controls will not have a disparate impact on underrepresented students in accordance with applicable civil rights laws.	Checked
Assure that enrolled students in accordance with teacher of record policies are included and may not be excluded.	Checked
Assure that procedures for ensuring data accuracy and integrity are being utilized.	Checked
Assure that district will develop SLOs according to the rules established by SED (see: <a href="http://www.engageny.org/resource/student-learning-objectives-guidance-document">http://www.engageny.org/resource/student-learning-objectives-guidance-document</a> ).	Checked
Assure that past academic performance and/or baseline academic data of students will be taken into account when developing an SLO.	Checked

Assure that the process for assigning points for SLOs for the Growth Subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators in ways that improve student learning and instruction.	Checked
Assure that it is possible for an educator to earn each point, including 0, for SLOs in the Growth subcomponent scoring range.	Checked
Assure that processes are in place to monitor SLOs to ensure rigor and comparability across classrooms.	Checked
Assure that the amount of time devoted to traditional standardized assessments that are not specifically required by state or federal law for each classroom or program within a grade level does not exceed, in the aggregate, one percent of the minimum required annual instructional hours for the grade.	Checked
Assure that, as applicable, any third party assessment that is administered to students in kindergarten, first, or second grade, and being used for APPR purposes, is consistent with the State's APPR Assessment Guidance and is not a traditional standardized assessment.	Checked

### 3. Local Measures (Teachers)

For guidance on the Locally Selected Measures subcomponent, see NYSED APPR Guidance sections E, F, and I. NYSED APPR Guidance is posted on [www.EngageNY.org](http://www.EngageNY.org) at <https://www.engageny.org/resource/guidance-on-new-york-s-annual-professional-performance-review-law-and-regulations/>.

#### **Locally Selected Measures of Student Achievement or Growth**

"Comparable across classrooms" means that the same locally-selected measures of student achievement or growth must be used across all classrooms in the same grade/subject in the district or BOCES.

Please note: If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 3.1 through 3.11, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, the district does not have certain grades, the district does not offer a specific subject, etc.

Locally selected measures for common branch teachers: This form calls for locally selected measures in both ELA and math in grades typically served by common branch teachers. Districts may select local measures for common branch teachers that involve subjects other than ELA and math. Whatever local measure is selected for common branch teachers, please enter it under ELA and/or math and describe the assessment used, including the subject. Use N/A for other lines in that grade level that are served by common branch teachers.

Describe the HEDI criteria for the measure in the same section where you identified the locally selected measure and assessment. Additionally, please provide a brief explanation in the HEDI general description box of why you have listed the grade/course as "Not Applicable" (e.g., district/BOCES does not offer this grade/subject; common branch teacher).

Please note: Only one locally-selected measure is required for teachers in the same grade/subject across the district, but some districts may prefer to have more than one measure for all teachers within a grade/subject. Also note: Districts may use more than one locally-selected measure for **different** groups of teachers **within a grade/subject** if the district/BOCES verifies comparability based on Standards of Educational and Psychological Testing. This APPR form only provides space for one measure for teachers in the same grade/subject across the district. Therefore, if more than one locally-selected measure is used for all teachers in any grades or subject, districts must complete additional copies of this form and upload as attachments for review.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: "[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment." For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: "GVEP-Developed Grade 7 Social Studies Assessment."

NOTE: If your district/BOCES is using the same assessment for both the State growth and other comparable measures subcomponent and the locally-selected measures subcomponent, be sure that a *different* measure of student performance is being used with the assessment (e.g., achievement rather than growth; growth measured in a different manner).

#### **LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR TEACHERS IN GRADES FOR WHICH THERE IS AN APPROVED VALUE-ADDED MEASURE (15 points)**

Growth or achievement measure(s) from these options.

*One or more of the following types of local measures of student growth or achievement may be used for the evaluation of teachers.*

*The options in the drop-down menus below are abbreviated from the following list:*

Measures based on:

- 1) The change in percentage of a teacher’s students who achieve a specific level of performance as determined locally, on such assessments/examinations compared to those students’ level of performance on such assessments/examinations in the previous school year (e.g., a three percentage point increase in students earning the proficient level (three) or better performance level on the 7<sup>th</sup> grade math State assessment compared to those same students’ performance levels on the 6<sup>th</sup> grade math State assessment, or an increase in the percentage of a teacher’s students earning the advanced performance level (four) on the 4<sup>th</sup> grade ELA or math State assessments compared to those students’ performance levels on the 3<sup>rd</sup> grade ELA or math State assessments)
- 2) Teacher specific growth score computed by the Department based on the percent of the teacher’s students earning a State determined level of growth. The methodology to translate such growth into the State-established sub-component scoring ranges shall be determined locally
- 3) Teacher specific achievement or growth score computed in a manner determined locally based on a measure of student performance on the State assessments, Regents examinations and/or Department approved alternative examinations other than the measure described in subclause 1) or 2) of this clause
- 4) Student growth or achievement computed in a manner determined locally based on a State-approved 3rd party assessment
- 5) Student growth or achievement computed in a manner determined locally based on a district, regional or BOCES-developed assessment that is rigorous and comparable across classrooms
- 6) A school-wide measure of either student growth or achievement based on either:
  - (i) A State-provided student growth score covering all students in the school that took the State assessment in ELA or Math in Grades 4-8; or
  - (ii) A school-wide measure of student growth or achievement computed in a manner determined locally based on a State, State-approved 3rd party, or district, regional or BOCES developed assessment that is rigorous and comparable across classrooms.

### 3.1) Grades 4-8 ELA

Using the drop-down boxes below, select the measure that will be used as the locally-selected measure of student achievement. Then name the specific assessment that will be used with the locally-selected measure, listing the full name of the assessment.

	Locally-Selected Measure from List of Approved Measures	Assessment
4	4) State-approved 3rd party assessments	STAR Reading Enterprise, Grade 4
5	4) State-approved 3rd party assessments	STAR Reading Enterprise, Grade 5
6	4) State-approved 3rd party assessments	STAR Reading Enterprise, Grade 6
7	4) State-approved 3rd party assessments	STAR Reading Enterprise, Grade 7
8	4) State-approved 3rd party assessments	STAR Reading Enterprise, Grade 8

For Grades 4-8 ELA: describe the district-adopted expectations for the level of growth or achievement needed for a teacher to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a teacher to earn any of the points in a scoring range, consistent with regulations and assurances.

*Note: When completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.*

Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 3.3, below.	Within the STAR system, each student is assigned a Student Growth Percentile score. Each individual student's growth from pre-test to post-test is compared against the performance of all students (state-wide and nationally) who scored at the same level on the pre-test. Relative to other similar students, each student's level of growth earns a growth score, and all of a teacher's students' growth scores are considered to determine the median growth of that teacher's students. Median growth at the 61st-99th percentile would earn a teacher the designation "Highly Effective". Median growth of 41st-60th percentile would earn the teacher the designation "Effective". Median Growth of 21st-40th percentile would equate to "Developing". Median growth of 1st-20th percentile would be "Ineffective". (see attached chart for STAR Student Growth Percentile (SGP) with 15 point scale). See task 3.13 for STAR Student Growth Percentile (SGP) with 20 point scale.
Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	The Median SGP score for the teacher's students on the STAR Assessment is 61st-99th percentile.
Effective (8- 13 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	The Median SGP score for the teacher's students on the STAR Assessment is 41st-60th percentile.
Developing (3 - 7 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	The Median SGP score for the teacher's students on the STAR Assessment is 21st-40th percentile.
Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	The Median SGP score for the teacher's students on the STAR Assessment is 1st-20th percentile.

7	4) State-approved 3rd party assessments	STAR Math Enterprise, Grade 7
8	4) State-approved 3rd party assessments	STAR Math Enterprise, Grade 8

For Grades 4-8 Math: describe the district-adopted expectations for the level of growth or achievement needed for a teacher to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a teacher to earn any of the points in a scoring range, consistent with regulations and assurances.

### 3.14) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in assigning points to a teacher’s score for this subcomponent, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

(No response)

### 3.15) Teachers with More Than One Locally Selected Measure

Describe the district’s process for combining multiple locally selected measures, each scored from 0-15 or 0-20 points as applicable, into a single subcomponent HEDI category and score. Examples may include: 4th grade teacher with locally-selected measures for both ELA and Math; High School teacher with more than 1 SLO.

If educators have more than one local measure of student achievement, the measures will each earn a score from 0-20 points, or 0-15 points if value-added measures were used. These scores will then be averaged together, weighted proportionately based on the number of students in each Local Achievement Measure.

### 3.16) Assurances

Please check all of the boxes below:

Assure the application of locally-developed controls will be rigorous, fair, and transparent.	Checked
Assure that use of locally-developed controls will not have a disparate impact on underrepresented students in accordance with any applicable civil rights laws.	Checked
Assure that enrolled students in accordance with teacher of record policies are included and may not be excluded.	Checked
Assure that procedures for ensuring data accuracy and integrity are being utilized.	Checked
Assure that the process for assigning points for locally selected measures will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators' performance in ways that improve student learning and instruction.	Checked
Assure that it is possible for an educator to earn each point, including 0, for the locally-selected measures subcomponent.	Checked
Assure that locally-selected measures are rigorous and comparable across all classrooms in the same grade/subject in the district.	Checked
If more than one type of locally-selected measure is used for different groups of teachers within a grade/subject, certify that the measures are comparable based on the Standards of Educational and Psychological Testing.	Checked
Assure that all locally-selected measures for a teacher are different than any measures used for the State assessment or other comparable measures subcomponent.	Checked

Assure that the amount of time devoted to traditional standardized assessments that are not specifically required by state or federal law for each classroom or program within a grade level does not exceed, in the aggregate, one percent of the minimum in required annual instructional hours for the grade.

Checked

Assure that, as applicable, any third party assessment that is administered to students in kindergarten, first, or second grade, and being used for APPR purposes, is consistent with the State's APPR Assessment Guidance and is not a traditional standardized assessment.

## 4. Other Measures of Effectiveness (Teachers)

Created: 04/30/2013

Last updated: 06/17/2015

For guidance on the Other Measures subcomponent, see NYSED APPR Guidance sections H and I. NYSED APPR Guidance is posted on [www.EngageNY.org](http://www.EngageNY.org) at <https://www.engageny.org/resource/guidance-on-new-york-s-annual-professional-performance-review-law-and-regulations/>.

### Page 1

#### 4.1) Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on NYS Teaching Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

The "Second Rubric" space is required for districts that have chosen an observation-only rubric (CLASS or NYSTCE) from the State-approved list.

(Note: Any district may use multiple rubrics, as long as the same rubric(s) is used for all classroom teachers in a grade/subject across the district.)

Rubric	Marzano's Causal Teacher Evaluation Model
Second Rubric, if applicable	Not Applicable

#### 4.2) Points Within Other Measures

State the number of points (if any) that will be assigned to each of the following measures, making sure that the points total 60. If you are not using a particular measure, enter 0.

This APPR form only provides one space for assigning points within other measures for teachers. If your district/BOCES prefers to assign points differently for different groups of teachers, enter the points assignment for one group of teachers below. For the other group(s) of teachers, fill out copies of this form and upload as an attachment for review.

Is the following points assignment applicable to all teachers?

Yes

If you checked "no" above, fill in the group of teachers covered by the points assignment indicated immediately below (e.g., "probationary teachers"):

(No response)

Multiple (at least two) classroom observations by principal or other trained administrator, at least one of which must be unannounced [at least 31 points]	40
One or more observation(s) by trained independent evaluators	(No response)
Observations by trained in-school peer teachers	(No response)
Feedback from students using State-approved survey tool	(No response)
Feedback from parents/caregivers using State-approved survey tool	(No response)

Structured reviews of lesson plans, student portfolios and other teacher artifacts	20
--	----

If the above points assignment is not for "all teachers," fill out an additional copy of "Form 4.2: Points Within Other Measures" for each group of teachers, label accordingly, and combine them into a single file, and upload as an attachment for review. [Click here for a downloadable copy of Form 4.2. \(MS Word\)](#)

### 4.3) Survey Tools (if applicable)

If you indicated above that 1 or more points will be assigned to feedback using a State-approved survey tool, please check the box below:

Assure that district/BOCES will use survey tool(s) from the State-approved list or approved through the NYSED survey variance process	(No response)
---	---------------

If the district plans to use one or more of the following surveys of P-12 students from the menu of State-approved surveys, please check all that apply. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu. Note: As the State-approved survey lists are updated, this form will be updated with additional approved survey tools.

Tripod Early Elementary Student Perception Survey K-2	(No response)
Tripod Elementary Student Perception Survey 3-5	(No response)
Tripod Secondary Student Perception Survey	(No response)
District Variance	(No response)
My Student Survey, LLC's Survey of Teacher Practice (STeP) survey for use in grades 3-12	(No response)

### 4.4) Assurances

Please check all of the boxes below:

Assure that all NYS Teaching Standards not addressed in classroom observations are assessed at least once a year.	Checked
Assure that the process for assigning points for the "other measures" subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators' performance in ways that improve student learning and instruction.	Checked
Assure that it is possible for an educator to earn each point, including 0, for the "other measures" subcomponent.	Checked
Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the district.	Checked

### 4.5) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the teacher practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

We will use the Marzano Causal Teacher Evaluation rubric on the iObservation electronic platform (from Learning Sciences International). Within this system, evaluators will assign scores to each domain based upon evidence gathered during classroom observations, pre-observation conferences, post-observation conferences, and review of documents submitted by the teacher. All 60 points will be based

upon the Marzano rubric. 40 points will be based on evidence observed during classroom observations (Marzano Domain 1), and 20 points will be based on other evidence (Marzano Domains 2,3,4). Observed sub-components will receive scores of 1-4, 1 being ineffective=beginning and not using; 2 being developing; 3 being effective=applying and 4 being highly effective=innovating. The iObservation system will be set up to weight sub-components to ensure that 40 of the 60 points were based on Domain 1, and the remaining 20 points are based on Domains 2,3,and 4. The sub-components will be scored 1-4, multiple observations are weighted and combined to generate a final score. After all evidence is submitted, the system will derive an overall score for each teacher on the scale of 1-4. This score will be applied against the attached conversion chart, which converts scores on the 4 point scale to scores on the 60 point scale. The scores indicated on the uploaded conversion chart are the minimum values necessary to earn the corresponding HEIDI points.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

Describe the level of performance required for each of the HEDI rating categories, consistent with the narrative descriptions in the regulations for the "other measures" subcomponent. Also describe how the points available within each HEDI category will be assigned.

Effective: Overall performance and results meet NYS Teaching Standards.	The teacher's average rating for scores assigned on the 4 point Marzano rubric must be 2.5 to 3.4.
Developing: Overall performance and results need improvement in order to meet NYS Teaching Standards.	The teacher's average rating for scores assigned on the 4 point Marzano rubric must be 1.5 to 2.4.
Ineffective: Overall performance and results do not meet NYS Teaching Standards.	The teacher's average rating for scores assigned on the 4 point Marzano rubric must be 1.0 to 1.4.

#### 6.1) Assurances -- Improvement Plans

Please check the boxes below:

Assure that teachers who receive a Developing or Ineffective rating will receive a Teacher Improvement Plan (TIP) within 10 school days from the opening of classes in the school year following the performance year	Checked
Assure that TIP plans shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a teacher's improvement in those areas	Checked

#### 6.2) Attachment: Teacher Improvement Plan Forms

As a required attachment to this APPR plan, upload the TIP forms that are used in the school district or BOCES. All TIP plans must include: 1) identification of needed areas of improvement, 2) a timeline for achieving improvement, 3) the manner in which the improvement will be assessed, and, where appropriate, 4) differentiated activities to support a teacher's improvement in those areas. For a list of supported file types, go to the Resources folder (above) and click Technical Tips. Please be sure to update a document with a form layout, with fillable spaces and not just a narrative.

#### 6.3) Appeals Process

Pursuant to Education Law section 3012-c, a teacher may only challenge the following in an appeal:

- (1) the substance of the annual professional performance review
- (2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c
- (3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

Appeals are limited to ineffective composite ratings for first-year teachers, to ineffective or developing ratings for all other teachers, and to those improvement plans that are generated as the result of an ineffective or developing composite rating. All grounds for appeals must be raised with specificity within a single appeal and the burden of demonstrating a right to the relief requested is with the teacher. A teacher has 10 school days to initiate an appeal after receiving their composite score or improvement plan. There are four levels of appeal which must be processed within a maximum of 50 school days: evaluator (filing within 10 school days and response within 10 school days);

superintendent (filing within 5 school days, superintendent hearing within 5 school days, and determination within 5 school days); bi-partisan panel (filing within 5 school days, review and recommendation within 5 school days), and then a return to the superintendent for final, binding, determination (within 5 school days of receipt of panel's recommendation. This appeals procedure constitutes the exclusive means for initiating, reviewing, and resolving these appeals.

#### **6.4) Training of Lead Evaluators and Evaluators and Certification of Lead Evaluators**

Describe the process for training lead evaluators and evaluators. Your description must include 1) the process for training lead evaluators and evaluators, 2) the process for the certification and re-certification of lead evaluators, 3) the process for ensuring inter-rater reliability, 4) the nature (content) and the duration (how many hours, days) of such training.

All District evaluators have participated in (and will continue to participate in) the teacher evaluator training series that has been offered through the St. Lawrence-Lewis BOCES. All of the essential elements within 8 training modules (for a total of 7 days will be included in the training. Each of the training elements required in the regulations and provided by SED has been turn-keyed to evaluators on the region with fidelity, and all district evaluators have participated fully in this series.

Ongoing training opportunities through St. Lawrence-Lewis BOCES will enable evaluators to refresh their learning, and new administrators will receive the full training series. Each year, certified evaluators will attend SLL BOCES-sponsored sessions in order to become re-certified. These sessions will focus upon continuing calibration of evaluators, ensuring inter-rater agreement and inter-rater reliability. All evaluators will participate in these yearly sessions to become re-calibrated. All lead evaluators are the evaluators.

All District teacher evaluators have also participated in two full days of Marzano framework instruction, focused on inter-rater agreement and inter-rater reliability. These sessions were led by trainers from Learning Sciences International who were deeply familiar with the Marzano framework. All have also participated in (and will continue to participate in) training from NorthEast Regional Information Center (NERIC) staff on the use of the iObservation electronic platform (within which the district will house its Marzano framework rubrics, instruments, and evidence).

Training will be based on the 9 elements.

(1) the New York State Teaching Standards, and their related elements and performance indicators and the Leadership Standards and their related functions, as applicable

(2) evidence-based observation techniques that are grounded in research

(3) application and use of the student growth percentile model and the value-added growth model as defined in section 30-2.2 of this Subpart

(4) application and use of the State-approved teacher or principal rubric(s) selected by the district or BOCES for use in evaluations, including training on the effective application of such rubrics to observe a teacher or principal's practice

(5) application and use of any assessment tools that the school district or BOCES utilizes to evaluate its classroom teachers or building principals, including but not limited to, structured portfolio reviews; student, parent, teacher and/or community surveys; professional growth goals and school improvement goals, etc.

(6) application and use of any State-approved locally selected measures of student achievement used by the school district or BOCES to evaluate its teachers or principals

(7) use of the Statewide Instructional Reporting System

(8) the scoring methodology utilized by the Department and/or the district or BOCES to evaluate a teacher or principal under this Subpart, including how scores are generated for each subcomponent and the composite effectiveness score and application and use of the scoring ranges prescribed by the Commissioner for the four designated rating categories used for the teacher's or principal's overall rating and their subcomponent ratings

(9) specific considerations in evaluating teachers and principals of English language learners and students with disabilities

Based upon their participation in these activities, District teacher evaluators will be certified by the Superintendent and Board of Education as lead evaluators and evaluators.

## 6.5) Assurances -- Evaluators

Please check the boxes below:

Assure that all evaluators are properly trained and that lead evaluators, who complete an individual's performance review, will be "certified" to conduct evaluations in the following nine elements:

(4) application and use of the State-approved teacher or principal rubric(s) selected by the district or BOCES for use in evaluations, including training on the effective application of such rubrics to observe a teacher or principal's practice

(5) application and use of any assessment tools that the school district or BOCES utilizes to evaluate its classroom teachers or building principals, including but not limited to, structured portfolio reviews; student, parent, teacher and/or community surveys; professional growth goals and school improvement goals, etc.

(6) application and use of any State-approved locally selected measures of student achievement used by the school district or BOCES to evaluate its teachers or principals

(7) use of the Statewide Instructional Reporting System

(8) the scoring methodology utilized by the Department and/or the district or BOCES to evaluate a teacher or principal under this Subpart, including how scores are generated for each subcomponent and the composite effectiveness score and application and use of the scoring ranges prescribed by the Commissioner for the four designated rating categories used for the teacher's or principal's overall rating and their subcomponent ratings

(9) specific considerations in evaluating teachers and principals of English language learners and students with disabilities

Assure that the district will maintain inter-rater reliability of evaluators over time.	Checked

**6.6) Assurances -- Teachers**

Please check all of the boxes below:

Assure the entire APPR plan will be completed for each teacher as soon as practicable, but in no case later than September 1 of the school year next following the school year for which the classroom teacher's performance is being measured.	Checked
Assure that the district or BOCES will provide the teacher's score and rating on the locally selected measures subcomponent, if available, and on the other measures of teacher and principal effectiveness subcomponent for a teacher's annual professional performance review, in writing, no later than the last school day of the school year for which the teacher or principal is being measured. Assure that SED will receive accurate teacher and student data, including enrollment and attendance data, and any other student, teacher, school, course, and teacher/student linkage data necessary to comply with regulations, in a format and timeline prescribed by the Commissioner.	Checked
Certify that the district provides an opportunity for every classroom teacher to verify the subjects and/or student rosters assigned to them.	Checked
Assure scores for all teachers will be reported to NYSED for each subcomponent, as well as the composite rating, as per NYSED requirements.	Checked

# 7. Growth on State Assessments or Comparable Measures (Principals)

Created: 04/30/2013

Last updated: 07/06/2015

For guidance on the State Growth or Comparable Measures subcomponent, see NYSED APPR Guidance sections D, F, and I. NYSED APPR Guidance is posted on [www.EngageNY.org](http://www.EngageNY.org) at <https://www.engageny.org/resource/guidance-on-new-york-s-annual-professional-performance-review-law-and-regulations/>.

## Page 1

### 7.1) STATE-PROVIDED MEASURES OF STUDENT GROWTH (25 points with an approved Value-Added Measure)

For principals in buildings with Grades 4-8 ELA, Math and/or High School courses with State or Regents assessments, (or principals of programs with any of these assessments), NYSED will provide value-added measures. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

In order for a principal to receive a State-provided value-added measure, at least 30% of the students in the principal's school or program must take the applicable State or Regents assessments. This will include most schools in the State.

Please list the grade configurations of the school(s)/program(s) in your district/BOCES where it is expected that 30-100% of a principal's students are taking assessments with a State-provided growth or value-added measure, (e.g., K-5, PK-6, 6-8, 6-12, 9-12, etc.).

Value-Added measures will apply to schools or principals with the following grade configurations in this district (please list, e.g., K-5, PK-6, 6-8, 6-12, 9-12):

	K-5
	6-12
	(No response)

### 7.2) Assurances -- State-Provided Measures of Student Growth

Please check the boxes below:

Assure that the value-added growth score(s) provided by NYSED will be used, where applicable	Checked
Assure that the State-provided growth measure will be used if a value-added measure has not been approved	Checked

### 7.3) STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for principals in buildings or programs in which fewer than 30% of students take Grades 4-8 ELA, Math, and/or High School courses with State or Regents assessments. SLOs will be developed using the assessments covering the most students in the school or program and continuing until at least 30% of students in the school or program are covered by SLOs. The district must select the type of assessment that will be used with the SLO from the options below.

- If any grade/course in the building has a State-provided growth measure AND the principal must have SLOs because fewer than 30% of students in the building are covered, then the SLOs will begin first with the SGP/VA results.
- Additional SLOs will then be set based on grades/subjects with State assessments, where applicable.
- If additional SLOs are necessary, principals must begin with the grade(s)/course(s) that have the largest number of students using school-wide student results from one of the following assessment options: State-approved 3rd party or district/regional/BOCES-developed assessments that are rigorous and comparable across classrooms.

State assessments, *required if one exists*

District, regional, or BOCES-developed assessments that are rigorous and comparable across classrooms

List of State-approved 3<sup>rd</sup> party assessments

First, list the grade configuration of the school or program the SLO applies to. Then, using the drop-down boxes below, please select the type of assessment that will be used for SLOs for the school/program listed. Finally, name the specific assessment listing the full name of the assessment. Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: “[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment.” For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: “GVEP-Developed Grade 7 Social Studies Assessment.” For State-approved 3rd party assessments, please include the name of the assessment exactly as it appears in RED on the State-approved list. For State assessments or Regents examinations, please indicate as such in the assessment name.

Please note that no APPR plan shall be approved by the Commissioner for use in the 2014-2015 school year or thereafter that provides for the administration of traditional standardized assessments for use with students in kindergarten through grade two for APPR purposes (see: <http://www.engageny.org/resource/guidance-on-the-approved-regulatory-amendments-to-appr-to-help-reduce-local-testing>).

Please also note that, for students using 3d party assessments in this Task, the 2nd drop-down option applies to grades 3 and above and the 4th drop-down option applies to grades K-2.

	School or Program Type	SLO with Assessment Option	Name of the Assessment
	K-5	State assessment	Grade 4 and 5 ELA and Math State Assessment
	6-12	State assessment	Grade 6-8 ELA and Math State Assessments, all Regents exams

Describe the district-adopted expectations for the level of performance required for each HEDI rating category and the process for assigning points to principals based on SLO results, consistent with regulations and assurances in the Comparable Growth Measures subcomponent. Include any district-determined expectations for student performance. Please describe the process your district is using to measure student growth on the assessments listed for this Task. If applicable, please also include a description of the process for combining the State-provided growth score with the SLO(s) for this Task.

<p>Use this box, if needed, to describe the process for assigning HEDI categories in this subcomponent. If needed, you may upload a table or graphic below.</p>	<p>If the State Provides growth scores for the K-5 , and 6-12 principal(s) and such scores represent less than 30% of the students supervised by that principal, the District will set SLO's for the largest courses in the building until at least 30%of students are covered. Where such courses end in a State or Regents assessment, that assessment will be used with the SLO. The State-provided scores will then be weighted proportionately with the SLO result(s) for the final HEDI score for the principal(s).</p> <p>For SLOs, based on historical data or a pre-assessment, the principal in collaboration with the Superintendent will set individual growth targets for each student. The Superintendent will approve all growth targets and the principal will receive a HEDI score based upon the percent of students reaching their targets.</p> <p>Based on the overall percentage of students who meet or exceed their individual growth target a corresponding 0-20 HEDI score will be determined using the uploaded conversion chart in attachment 7.3. Beginning in the 2014-2015 school year, the district will administer the NYS Common Core Algebra, Geometry and ELA Regents exams, as well as the 2005 Standards Algebra, Geometry and ELA regents exams, to students in Common Core courses. The higher of the 2 scores will be used for APPR purposes, so long as permitted by SED. The district has the final approval for setting all targets.</p>
<p>Highly Effective (18 - 20 points) Results are well above state average for similar students (or District goals if no state test).</p>	<p>See attachment in 7.3</p>
<p>Effective (9 - 17 points) Results meet state average for similar students (or District goals if no state test).</p>	<p>See attachment in 7.3</p>
<p>Developing (3 - 8 points) Results are below state average for similar students (or District goals if no state test).</p>	<p>See attachment in 7.3</p>
<p>Ineffective (0 - 2 points) Results are well below state average for similar students (or District goals if no state test).</p>	<p>See attachment in 7.3</p>

If you are using tables or other graphics to explain your process for assigning HEDI categories, please clearly label them, combine them into a single file, and upload that file here.

**7.4) Special Considerations for Comparable Growth Measures**

Describe any adjustments, controls, or other special considerations that will be used in assigning points to a principal's score for this subcomponent, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are the following: prior student achievement results, students with disabilities, English language learners, and students in poverty.

N/A

**7.5) Principals with More Than One Growth Measure**

If educators have more than one State-provided growth or value-added measure, those measures will be combined into one HEDI category and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Principals of K-8 schools with growth measures for ELA and Math grades 4-8.)

If Principals have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points and Districts will weight each in proportion to the number of students covered by the SLO to reach a combined score for this subcomponent.

## 7.6) Assurances -- Comparable Growth Measures

Please check all of the boxes below:

Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.	Checked
Assure that use of locally developed controls will not have a disparate impact on underrepresented students in accordance with applicable civil rights laws.	Checked
Assure that procedures for ensuring data accuracy and integrity are being utilized.	Checked
Assure that district will develop SLOs according to the rules established by NYSED for principal SLOs: <a href="http://www.engageny.org/resource/student-learning-objectives-guidance-document">http://www.engageny.org/resource/student-learning-objectives-guidance-document</a> .	Checked
Assure that the process for assigning points for SLOs for the Growth Subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educator performance in ways that improve student learning and instruction.	Checked
Assure that it is possible for a principal to earn each point, including 0, for SLOs in the Growth subcomponent scoring range.	Checked
Assure that processes are in place to monitor SLOs to ensure rigor and comparability across classrooms.	Checked
Assure that the amount of time devoted to traditional standardized assessments that are not specifically required by state or federal law for each classroom or program within a grade level does not exceed, in the aggregate, one percent of the minimum required annual instructional hours for the grade.	Checked
Assure that, as applicable, any third party assessment that is administered to students in kindergarten, first, or second grade, and being used for APPR purposes, is consistent with the State's APPR Assessment Guidance and is not a traditional standardized assessment.	Checked

## 8. Local Measures (Principals)

Created: 04/30/2013

Last updated: 07/06/2015

For guidance on locally selected measures of student achievement or growth, see NYSED APPR Guidance sections E, F, and I. NYSED APPR Guidance is posted on [www.EngageNY.org](http://www.EngageNY.org) at <https://www.engageny.org/resource/guidance-on-new-york-s-annual-professional-performance-review-law-and-regulations/>.

### Page 1

#### **Locally-Selected Measures of Student Achievement or Growth**

Locally comparable means that the same locally-selected measures of student achievement or growth must be used for all principals in the same or similar programs or grade configurations across the district or BOCES.

Please note: only one locally-selected measure is required for principals in the same or similar programs or grade configurations, but some districts may prefer to have more than one measure for principals in the same or similar programs or grade configurations. This APPR form therefore provides space for multiple locally-selected measures for each principal in the same or similar program or grade configuration across the district. Therefore, if more than one locally-selected measure is used for all principals in the same or similar program or grade configuration, districts must complete additional copies of this form and upload as attachments for review.

Also note: districts may use more than one locally-selected measure for **different** groups of principals **within the same or similar programs or grade configurations** if the district/BOCES prove comparability based on Standards of Educational and Psychological Testing. If a district is choosing different measures for different groups of principals within the same or similar programs or grade configurations, they must complete additional copies of this form and upload as attachments for review.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: “[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment.” For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: “GVEP-Developed Grade 7 Social Studies Assessment.”

Also note: if your district/BOCES is using the same assessment for both the State growth or other comparable measures subcomponent and the locally-selected measures subcomponents, be sure that a *different* measure of student performance is being used with the assessment (e.g., achievement rather than growth; growth measured in a different manner).

Also note: no APPR plan shall be approved by the Commissioner for use in the 2014-2015 school year or thereafter that provides for the administration of traditional standardized assessments for use with students in kindergarten through grade two for APPR purposes (see: <http://www.engageny.org/resource/guidance-on-the-approved-regulatory-amendments-to-appr-to-help-reduce-local-testing/>).

#### **8.1) LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR PRINCIPALS WITH AN APPROVED VALUE-ADDED MEASURE (15 points)**

In the table below, please list the grade configurations of the school(s)/program(s) in your district/BOCES where it is expected that 30-100% of a principal’s students are taking assessments with a State-provided growth or value-added measure (e.g., K-5, 6-8, 9-12). Then for each grade configuration, select a measure of growth or achievement from the drop-down menu. As a reminder, the grade configurations/programs listed in Task 8.1 should be the same as those listed in Task 7.1.

**Note: Districts and BOCES may select one or more types of growth or achievement measures for each grade configuration. If you are using more than one type of local measure for the evaluation of principals in a given grade configuration, list that grade configuration multiple times. If more space is needed, duplicate this portion of the form and upload additional pages (below) as an attachment.**

**The options in the drop-down menus below are abbreviated from the following list:**

- (a) student achievement levels on State assessments in ELA and/or Math in Grades 4-8 (e.g., percentage of students in the school whose performance levels on State assessments are proficient or advanced)
- (b) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students in each specific performance level (e.g., Level 1, Level 2)

- (c) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students with disabilities and English Language Learners in Grades 4-8
- (d) student performance on any or all of the district-wide locally selected measures approved for use in teacher evaluations
- (e) four, five and/or six-year high school graduation and/or dropout rates for principals employed in a school with high school grades
- (f) percentage of students who earn a Regents diploma with advanced designation and/or honors for principals employed in a school with high school grades
- (g) percentage of a cohort of students that achieve specified scores on Regents examinations and/or Department approved alternative examinations (including, but not limited to, Advanced Placement examinations, International Baccalaureate examinations, SAT II, etc.), for principals employed in a school with high school grades (e.g., the percentage of students in the 2009 cohort that scored at least a 3 on an Advanced Placement examination since entry into the ninth grade)
- (h) students' progress toward graduation in the school using strong predictive indicators, including but not limited to 9<sup>th</sup> and/or 10<sup>th</sup> grade credit accumulation and/or the percentage of students that pass 9<sup>th</sup> and/or 10<sup>th</sup> grade subjects most commonly associated with graduation and/or students' progress in passing the number of required Regents examinations for graduation, for principals employed in a school with high school grades

	Grade Configuration/Program	Locally-Selected Measure from List of Approved Measures	Assessment
	K-5	(d) measures used by district for teacher evaluation	STAR Reading Enterprise/STAR Math Enterprise
	6-12	(d) measures used by district for teacher evaluation	STAR Reading Enterprise/STAR Math Enterprise

Describe the district-adopted expectations for the level of growth or achievement needed for a principal to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a principal to earn any of the points in a scoring range, consistent with regulations and assurances.

*Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.*

Use this box, if needed, to describe the process for assigning HEDI categories. If needed, you may upload a table or graphic below.	STAR Reading Enterprise and STAR Math Enterprise provide a Student Growth Percentile (SGP) score for each student to whom it is administered. The SGP's of all students in the principal's school will be considered, and the median SGP will be used to determine the principal's HEDI rating and score. A median SGP of 61st-99th would equate to Highly Effective, 41st-60th would equate to Effective, 21st-40th would equate to Developing, and 1st-20th would equate to Ineffective (see attached chart, STAR Student Growth Percentile, SGP, with 15 point scale). Within the STAR system, each student is assigned a Student Growth Percentile score. Each individual student's growth from pre-test to post-test is compared against the performance of all students (state-wide and nationally) who scored at the same level on the pre-test. Relative to other similar students, each student's level of growth earns a growth score, and all of a teacher's students' growth scores are considered to determine the median growth of that principal's students.
Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	The Principal's median STAR Student Growth Percentile (SGP) score is in the 61st-99th percentile range.
Effective (8- 13 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	The Principal's median STAR Student Growth Percentile (SGP) score is in the 41st-60th percentile range.
Developing (3 - 7 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	The Principal's median STAR Student Growth Percentile (SGP) score is in the 21st-40th percentile range.

Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.

The Principal's median STAR Student Growth Percentile (SGP) score is in the 1st-20th percentile.

## 8.2) LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR ALL OTHER PRINCIPALS (20 points)

In the table below, list all of the grade configurations/programs used in your district or BOCES in which the district/BOCES expects that fewer than 30% of students will receive a State-provided growth score (e.g., K-2, K-3, CTE). Then for each grade configuration, select a measure from the drop-down menu. As a reminder, the grade configurations/programs listed in Task 8.2 should be the same as those listed in Task 7.3.

**Note:** Districts and BOCES may select one or more types of growth or achievement measures for each grade configuration. If you are using more than one type of local measure for the evaluation of principals in a given grade configuration, list that grade configuration multiple times. If more space is needed, duplicate this portion of the form and upload additional pages (below) as an attachment.

**Also note:** no APPR plan shall be approved by the Commissioner for use in the 2014-2015 school year or thereafter that provides for the administration of traditional standardized assessments for use with students in kindergarten through grade two for APPR purposes (see: <http://www.engageny.org/resource/guidance-on-the-approved-regulatory-amendments-to-appr-to-help-reduce-local-testing>).

The options in the drop-down menus below are abbreviated from the following list:

- (a) student achievement levels on State assessments in ELA and/or Math in Grades 4-8 (e.g., percentage of students in the school whose performance levels on State assessments are proficient or advanced)
- (b) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students in each specific performance level (e.g., Level 1, Level 2)
- (c) student growth or achievement on State assessments in ELA and/or Math in Grades 4-8 for students with disabilities and English Language Learners in Grades 4-8
- (d) student performance on any or all of the district-wide locally selected measures approved for use in teacher evaluations
- (e) four, five and/or six-year high school graduation and/or dropout rates for principals employed in a school with high school grades
- (f) percentage of students who earn a Regents diploma with advanced designation and/or honors for principals employed in a school with high school grades
- (g) percentage of a cohort of students that achieve specified scores on Regents examinations and/or Department approved alternative examinations (including, but not limited to, Advanced Placement examinations, International Baccalaureate examinations, SAT II, etc.), for principals employed in a school with high school grades (e.g., the percentage of students in the 2009 cohort that scored at least a 3 on an Advanced Placement examination since entry into the ninth grade)
- (h) students' progress toward graduation in the school using strong predictive indicators, including but not limited to 9<sup>th</sup> and/or 10<sup>th</sup> grade credit accumulation and/or the percentage of students that pass 9<sup>th</sup> and/or 10<sup>th</sup> grade subjects most commonly associated with graduation and/or students' progress in passing the number of required Regents examinations for graduation, for principals employed in a school with high school grades
- (i) student learning objectives (only allowable for principals in programs/buildings without a Value-Added measure for the State Growth subcomponent). Used with one of the following assessments: State, State-approved 3rd party, or a District, regional, or BOCES-

developed assessment that is rigorous and comparable across classrooms

**Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment. For example, a regionally-developed 7th grade Social Studies assessment would be written as follows: [INSERT SPECIFIC NAME OF REGION]-developed 7th grade Social Studies assessment.**

	Grade Configuration	Locally-Selected Measure from List of Approved Measures	Assessment

Describe the district-adopted expectations for the level of growth or achievement needed for a principal to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a principal to earn any of the points in a scoring range, consistent with regulations and assurances.

*Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.*

Use this box, if needed, to describe the process for assigning HEDI categories. If needed, you may upload a table or graphic below.	NA
Highly Effective (18 - 20 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	NA
Effective (9- 17 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	NA
Developing (3 - 8 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	NA
Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	NA

**8.3) Locally Developed Controls**

Describe any adjustments, controls, or other special considerations that will be used in assigning points to a principal's score for this subcomponent, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

(No response)

## 8.4) Principals with More Than One Locally Selected Measure

Describe the district's process for combining multiple locally selected measures where applicable for principals, each scored from 0-15 or 0-20 points as applicable, into a single subcomponent HEDI category and score.

If educators have more than one local measure of student achievement, the measures will each earn a score from 0-20 points, or 0-15 points if value-added measures were used. These scores will then be averaged together, weighted proportionately based on the number of students in each Local Achievement Measure.

## 8.5) Assurances

Please check all of the boxes below:

Assure that the application of locally developed controls will be rigorous, fair, and transparent	Check
Assure that use of locally developed controls will not have a disparate impact on underrepresented students, in accordance with any applicable civil rights laws.	Check
Assure that enrolled students are included in accordance with policies for student assignment to schools and may not be excluded.	Check
Assure that procedures for ensuring data accuracy and integrity are being utilized.	Check
Assure that the process for assigning points for locally selected measures will use the narrative HEDI descriptions described in the regulations to effectively differentiate principals' performance in ways that improve student learning and instruction.	Check
Assure that it is possible for a principal to earn each point, including 0, for the locally selected measures subcomponent.	Check
Assure that locally-selected measures are rigorous and comparable across all principals in the same or similar programs or grade configurations across the district.	Check
If more than one type of locally-selected measure is used for different groups of principals in the same or similar grade configuration or program, certify that the measures are comparable based on the Standards of Educational and Psychological Testing.	Check
Assure that all locally-selected measures for a principal are different than any measures used for the State assessment or other comparable measures subcomponent.	Check
Assure that the amount of time devoted to traditional standardized assessments that are not specifically required by state or federal law for each classroom or program within a grade level does not exceed, in the aggregate, one percent of the minimum required annual instructional hours for the grade.	Check
Assure that, as applicable, any third party assessment that is administered to students in kindergarten, first, or second grade, and being used for APPR purposes, is consistent with the State's APPR Assessment Guidance and is not a traditional standardized assessment.	Check

#### 9.1) Principal Practice Rubric

Select the choice of principal practice rubric from the menu of State-approved rubrics to assess performance based on ISLLC 2008 Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

The "Second Rubric" space is optional. A district may use multiple rubrics, as long as the same rubric(s) is used for all principals in the same or similar programs or grade configurations across the district.

#### 9.2) Points Within Other Measures

State the number of points that will be assigned to each of the following measures, making sure that the points total 60. If you are not assigning any points to the "ambitious and measurable goals" measure, enter 0.

Some districts may prefer to assign points differently for different groups of principals. This APPR form only provides one space for assigning points within other measures for principals. If your district/BOCES prefers to assign points differently for different groups of principals, enter the point assignment for one group of principals below. For the other group(s) of principals, fill out copies of this form and upload as an attachment for review.

Is the following point assignment for all principals?

(No response)
Assure that any other goals, if applicable, shall address quantifiable and verifiable improvements in academic results or the school's learning environment (e.g. student or teacher attendance).	(No response)

**9.4) Sources of Evidence (if applicable)**

If you indicated above that one or more points will be assigned to the "ambitious and measurable goals" measure, identify at least two of the following sources of evidence that will be utilized as part of assessing every principal's goal(s):

Structured feedback from teachers using a State-approved tool	(No response)

## 9.6) Assurances

Please check all of the boxes below:

Assure that all ISLLC 2008 Leadership Standards are assessed at least one time per year.	Checked
Assure that the process for assigning points for the "other measures" subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate principals' performance in ways that improve student learning and instruction	Checked

Assure that the same rubric(s) is used for all principals in the same or similar programs or grade configurations across the district or BOCES.	Checked

## 9.7) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the principal practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

The Principal will be assigned a score of 1-4 for each element of the Marzano Principal practice rubric, based upon the Superintendent's (BOCES District Superintendent) broad assessment, with all 60 points coming from the rubric. Elements will be scored 1-4, multiple observations of the same elements will be averaged and domains will be weighted and combined. The district will use the iObservation system to collect the rubric scores and assign the HEIDI ratings. Observed elements will receive scores of 1-4, 1 being ineffective=beginning and not using; 2 being developing; 3 being effective=applying and 4 being highly effective=innovating. iObservation will be set up to weight domains to ensure that 20% of the 60 points were based on Domain 1, and 40% of the 60 points are based on Domain 2, 20% of the 60 points are based on domain 3, and 10% of the 60 points are based on domains 4 and 10% of the 60 points are based on domain 5. This score will be applied against the attached conversion chart, which converts scores on the 1-4 scale to the 0-60 scale (see attached chart). The scores indicated on the uploaded conversion chart are the minimum values necessary to earn the corresponding HEIDI points.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

Describe the level of performance required for each of the HEDI rating categories, consistent with the narrative descriptions in the regulations for the "other measures" subcomponent. Also describe how the points available within each HEDI category will be assigned.

Highly Effective: Overall performance and results exceed standards.	The principal's average rating for scores assigned on the 4 point rubric must be 3.5 or greater.
Effective: Overall performance and results meet standards.	The principal's average rating for scores assigned on the 4 point rubric must be 2.5 to 3.4
Developing: Overall performance and results need improvement in order to meet standards.	The principal's average rating for scores assigned on the 4 point rubric must be 1.5-2.4
Ineffective: Overall performance and results do not meet standards.	The principal's average rating for scores assigned on the 4 point rubric must be 1.0 to 1.4

Please provide the locally-negotiated 60 point scoring bands.

### 11.1) Assurances -- Improvement Plans

Please check the boxes below.

Assure that principals who receive a Developing or Ineffective rating will receive a Principal Improvement Plan (PIP) within 10 school days from the opening of classes in the school year following the performance year	Checked
Assure that PIPs shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a principal's improvement in those areas	Checked

### 11.2) Attachment: Principal Improvement Plan Forms

As a required attachment to this APPR plan, upload the PIP forms that are used in the school district or BOCES. All PIP plans must include: 1) identification of needed areas of improvement, 2) a timeline for achieving improvement, 3) the manner in which the improvement will be assessed, and, where appropriate, 4) differentiated activities to support a principal's improvement in those areas.

For a list of supported file types, go to the Resources folder (above) and click Technical Tips. Please be sure to update a document with a form layout, with fillable spaces and not just a narrative.

### 11.3) Appeals Process

Pursuant to Education Law section 3012-c, a principal may only challenge the following in an appeal:

- (1) the substance of the annual professional performance review
- (2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c
- (3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

Appeals are limited to ineffective composite ratings for first-year principals, to ineffective or developing ratings for all other principals, and to those improvement plans that are generated as the result of an ineffective or developing composite rating. All grounds for appeal must be raised with specificity within a single appeal and the burden of demonstrating a right to the relief requested is with the principal. A principal has 15 school days to initiate an appeal after receiving their composite score or improvement plan. There are three levels of appeal which

must be processed within a maximum of 70 calendar days: evaluator (filing within 15 calendar days and a response within 15 calendar days), bi-partisan panel (filing within 10 calendar days review and recommendation within 10 calendar days); and district superintendent of the St. Lawrence-Lewis BOCES for final determination (filing within 10 calendar days, review and recommendation within 10 calendar days of the panel's recommendation and binding determination by district superintendent within 10 calendar days. This appeals procedure constitutes the exclusive means for initiating, reviewing, and resolving these appeals.

#### **11.4) Training of Lead Evaluators and Evaluators and Certification of Lead Evaluators**

Describe the process for training lead evaluators and evaluators. Your description must include 1) the process for training lead evaluators and evaluators, 2) the process for the certification and re-certification of lead evaluators, 3) the process for ensuring inter-rater reliability, 4) the nature (content) and the duration (how many hours, days) of such training.

All Principal Evaluators have participated in and will continue to participate in the St. Lawrence-Lewis BOCES training series on Principal Evaluation. The District will also utilize ongoing training materials provided through the LEAF Subscription Service of NYSCOSS to participate in ongoing training both regionally and in-district moving forward. Those who have not yet been through the training series will go through the same series and new evaluators will do so in years thereafter. Each year, certified evaluators will attend SLL BOCES-sponsored sessions in order to become re-certified. These sessions will focus upon continuing calibration of evaluators, ensuring inter-rater reliability. All evaluators will participate in these yearly sessions to become re-calibrated. Training will be based on the 9 elements:

(1) the New York State Teaching Standards, and their related elements and performance indicators and the Leadership Standards and their related functions, as applicable

(2) evidence-based observation techniques that are grounded in research

(3) application and use of the student growth percentile model and the value-added growth model as defined in section 30-2.2 of this Subpart

(4) application and use of the State-approved teacher or principal rubric(s) selected by the district or BOCES for use in evaluations, including training on the effective application of such rubrics to observe a teacher or principal's practice

(5) application and use of any assessment tools that the school district or BOCES utilizes to evaluate its classroom teachers or building principals, including but not limited to, structured portfolio reviews; student, parent, teacher and/or community surveys; professional growth goals and school improvement goals, etc.

(6) application and use of any State-approved locally selected measures of student achievement used by the school district or BOCES to evaluate its teachers or principals

(7) use of the Statewide Instructional Reporting System

(8) the scoring methodology utilized by the Department and/or the district or BOCES to evaluate a teacher or principal under this Sub-part, including how scores are generated for each sub-component and the composite effectiveness score and application and use of the scoring ranges prescribed by the Commissioner for the four designated rating categories used for the teacher's or principal's overall rating and their sub-component ratings

(9) specific considerations in evaluating teachers and principals of English language learners and students with disabilities

Based upon their participation in these activities, District principal evaluators will be certified and recertified by the Superintendent (BOCES District Superintendent) and Board of Education as lead evaluators.  
The minimum duration of the training will be 5 half day sessions.

### 11.5) Assurances -- Evaluators

Please check the boxes below:

Assure that all evaluators are properly trained and that lead evaluators, who complete an individual's performance review, will be "certified" to conduct evaluations in the following nine elements:	Checked

- (9) specific considerations in evaluating teachers and principals of English language learners and students with disabilities

Assure that the district will maintain inter-rater reliability of evaluators over time.	Checked
---	---------

### 11.6) Assurances -- Principals

For all additional courses, as applicable: describe the district-adopted expectations for the level of growth or achievement needed for a teacher to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a teacher to earn any of the points in a scoring range, consistent with regulations and assurances.

Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.

<p>Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 3.13, below.</p>	<p>Each student score will be assigned to level 1 through level 4, and the teacher's average student score will be computed (on the 4 point scale). Scores of 3.5 to 4 will equate to Highly Effective. Scores of 2.5 to 3.4 will be Effective. Scores of 1.5 to 2.4 will be Developing. Scores of 1 to 1.4 will be Ineffective. Each teacher's score on the 4 point scale will be converted to the 20 point scale using the attached conversion chart.</p>
<p>Highly Effective (18-20 points) Results are well above District- or BOCES -adopted expectations for growth or achievement for grade/subject.</p>	<p>Teacher's average student score, on the four point scale, is between 3.5 and 4.</p>
<p>Effective (9-17 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.</p>	<p>Teacher's average student score, on the four point scale, is between 2.5 and 3.4.</p>
<p>Developing (3-8 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.</p>	<p>Teacher's average student score, on the four point scale, is between 1.5 and 2.4.</p>
<p>Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.</p>	<p>Teacher's average student score, on the four point scale, is between 1 and 1.4.</p>
