Laura Campione, Superintendent  
Oppenheim-Ephratah-St. Johnsville Central School District  
44 Center Street  
St. Johnsville, NY 13452

Dear Superintendent Campione:

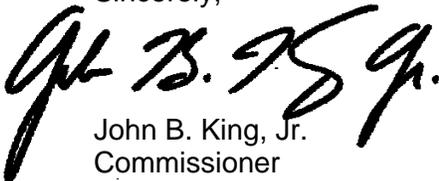

Congratulations. I am pleased to inform you that your Annual Professional Performance Review Plan (APPR) meets the criteria outlined in Education Law §3012-c and Subpart 30-2 of the Commissioner's Regulations and has been approved. As a reminder, we are relying on the information you provided on your APPR form, including the certifications and assurances that are part of your approved APPR. If any material changes are made to your approved APPR plan, your district/BOCES must submit such material changes to us for approval. Please see the attached notes for further information.

Please be advised that, pursuant to Education Law §3012-c, the Department will be analyzing data supplied by districts, BOCES, and/or schools and may order a corrective action plan if there are unacceptably low correlation results between the student growth subcomponent and any other measures of teacher and principal effectiveness and/or if the teacher or principal scores or ratings show little differentiation across educators and/or the lack of differentiation is not justified by equivalently consistent student achievement results.

The New York State Education Department and I look forward to continuing our work together, with the goal of ensuring that every school has world-class educators in the classroom, every teacher has a world-class principal to support his or her professional growth, and every student achieves college and career readiness.

Thank you again for your hard work.

Sincerely,

John B. King, Jr.  
Commissioner

## 2. Growth on State Assessments or Comparable Measures (Teachers)

### Page 1

#### STATE-PROVIDED MEASURES OF STUDENT GROWTH

(25 points with an approved value-added measure)

For teachers in grades 4 - 8 Common Branch, ELA, and Math, NYSED will provide a value-added growth score. That score will incorporate students' academic history compared to similarly academically achieving students and will use special considerations for students with disabilities, English language learners, students in poverty, and, in the future, any other student-, classroom-, and school-level characteristics approved by the Board of Regents. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

While most teachers of 4-8 Common Branch, ELA and Math will have state-provided measures, some may teach other courses in addition where there is no state-provided measure. Teachers with 50 – 100% of students covered by State-provided growth measures will receive a growth score from the State for the full Growth subcomponent score of their evaluation. Teachers with 0 – 49% of students covered by State-provided growth measures must have SLOs for the Growth subcomponent of their evaluation and one SLO must use the State-provided measure if applicable for any courses. (See guidance for more detail on teachers with State-provided measures AND SLOs.)

Please note that if the Board of Regents does not approve a value-added measure for these grades/subjects, the State-provided growth measure will be used for 20 points in this subcomponent. NYSED will provide a HEDI subcomponent rating category and score from 0 to 20 points.

#### 2.1) Assurances

Please check the boxes below:

2.1) Assurances   Assure that the value-added growth score provided by NYSED will be used, where applicable.	Checked
2.1) Assurances   Assure that the State-provided growth measure will be used if a value-added measure has not been approved.	Checked

#### STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for teachers in the following grades and subjects. (Please note that for teachers with more than one grade and subject, SLOs must cover the courses taught with the largest number of students, combining sections with common assessments, until a majority of students are covered.)

**For core subjects: grades 6-8 Science and Social Studies, high school English Language Arts, Math, Science, and Social Studies courses associated in 2010-11 with Regents exams or, in the future, with other State assessments, the following must be used as the evidence of student learning within the SLO:**

State assessments (or Regents or Regent equivalents), *required if one exists*

*If no State assessment or Regents exam exists:*

District-determined assessments from list of State-approved 3rd party assessments; or

District, regional or BOCES-developed assessments provided that it is rigorous and comparable across classrooms  
**For other grades/subjects: district-determined assessments from options below may be used as evidence of student learning within the SLO:**

State assessments, *required if one exists*

List of State-approved 3rd party assessments

District, regional, or BOCES-developed assessments provided that it is rigorous and comparable across classrooms

School- or BOCES-wide, group or team results based on State assessments

**Please note:** If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 2.2 through 2.9, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, common branch teachers also teach 6th grade science and/or social studies and therefore would have State-provided growth measures, not SLOs; the district or BOCES does not have certain grades; the district does not offer a specific subject; etc.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: “[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment.” For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: “GVEP-Developed Grade 7 Social Studies Assessment.”

## 2.2) Grades K-3 ELA

Using the drop-down boxes below, please first select the assessment that will be used for SLOs for the grade/subject listed. Then name the specific assessment, listing the full name of the assessment. State assessments must be used where applicable.

Include any district-determined expectations for measuring student growth on the assessments listed for this Task.

Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 2.11, below.	The percentage of students that reach their target for each teacher is calculated and then located on the HEDI Scale. The individual growth targets were created by the teacher and the principal based on baseline data.
Highly Effective (18 - 20 points) Results are well-above state average for similar students (or District goals if no state test).	82 - 100 % of students reaching growth goal
Effective (9 - 17 points) Results meet state average for similar students (or District goals if no state test).	55 - 81 % of students reaching growth goal
Developing (3 - 8 points) Results are below state average for similar students (or District goals if no state test).	49 - 54 % of students reaching growth goal

Include any district-determined expectations for measuring student growth on the assessments listed for this Task.

Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 2.11, below.	Every 6th, 7th and 8th grade science student will be given a pre-test in early October to establish a baseline. Teachers /Principals will analyze the pretests and past data to set a growth target. The individual growth target will reflect a goal for the final exam given in June for grades 6 and 7 and the May/June NYS Assessment for grade 8. HEDI categories will be assigned based on the percentage of students who achieve this goal. Teachers will not correct the post assessment/final exam for their own students (classes).

## 2.11) HEDI Tables or Graphics

For questions 2.2 through 2.10 above, if you are using tables or other graphics to explain your general process for assigning HEDI categories, please combine all such tables or graphics into a single file, labeling each so it is clear which grades/subjects it applies to, and upload that file here.

## 2.12) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used assigning points to a teacher's score for this subcomponent, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are the following: student prior academic history, students with disabilities, English language learners, and students in poverty.

For teachers whose growth score includes students with disabilities, English language learners or students in poverty, an additional 2 points will be added to their HEDI rating which will then be used as their score for the growth portion of their APPR. Historically students with disabilities, in poverty, perform below their peers. Teachers do not set their own class rosters. District administrators set rosters. In no way will the application of any control or adjustment result in a teachers score being adjusted by more than 2 points.

## 2.13) Teachers with more than one growth measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI rating and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Common branch teacher with state-provided value-added measures for both ELA and Math in 4th grades; Middle school math teacher with both 7th and 8th grade math courses.)

If educators have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points which Districts must weight proportionately based on the number of students in each SLO.

## 2.14) Assurances

Please check all of the boxes below:

2.14) Assurances   Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.	Checked
2.14) Assurances   Assure that use of locally developed controls will not have a disparate impact on underrepresented students in accordance with applicable civil rights laws.	Checked
2.14) Assurances   Assure that enrolled students in accordance with teacher of record policies are included and may not be excluded.	Checked

2.14) Assurances   Assure that past academic performance and/or baseline academic data of students will be taken into account when developing an SLO.	Checked
2.14) Assurances   Assure that the process for assigning points for SLOs for the Growth Subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators in ways that improve student learning and instruction.	Checked
2.14) Assurances   Assure that it is possible for an educator to earn each point, including 0, for SLOs in the Growth subcomponent scoring range.	Checked
2.14) Assurances   Assure that processes are in place to monitor SLOs to ensure rigor and comparability across classrooms.	Checked

### 3. Local Measures (Teachers)

Created Friday, August 30, 2013

Updated Tuesday, September 03, 2013

---

#### Page 1

#### Locally Selected Measures of Student Achievement or Growth

"Comparable across classrooms" means that the same locally-selected measures of student achievement or growth must be used across all classrooms in the same grade/subject in the district or BOCES.

Please note: If your district or BOCES does not have grade/subject-specific teachers for one or more of the rows in questions 3.1 through 3.11, choose "Not applicable" from the drop-down box and type N/A in the assessment box. This would be appropriate if, for example, the district does not have certain grades, the district does not offer a specific subject, etc.

Locally selected measures for common branch teachers: This form calls for locally selected measures in both ELA and math in grades typically served by common branch teachers. Districts may select local measures for common branch teachers that involve subjects other than ELA and math. Whatever local measure is selected for common branch teachers, please enter it under ELA and/or math and describe the assessment used, including the subject. Use N/A for other lines in that grade level that are served by common branch teachers. Describe the HEDI criteria for the measure in the same section where you identified the locally selected measure and assessment. Additionally, please provide a brief explanation in the HEDI general description box of why you have listed the grade/course as "Not Applicable" (e.g., district/BOCES does not offer this grade/subject; common branch teacher).

Please note: Only one locally-selected measure is required for teachers in the same grade/subject across the district, but some districts may prefer to have more than one measure for all teachers within a grade/subject. Also note: Districts may use more than one locally-selected measure for **different** groups of teachers **within a grade/subject** if the district/BOCES verifies comparability based on Standards of Educational and Psychological Testing. This APPR form only provides space for one measure for teachers in the same grade/subject across the district. Therefore, if more than one locally-selected measure is used for all teachers in any grades or subject, districts must complete additional copies of this form and upload as attachments for review.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: "[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment." For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: "GVEP-Developed Grade 7 Social Studies Assessment."

NOTE: If your district/BOCES is using the same assessment for both the State growth and other comparable measures subcomponent and the locally-selected measures subcomponent, be sure that a *different* measure of student performance is being used with the assessment (e.g., achievement rather than growth; growth measured in a different manner).

#### LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR TEACHERS IN GRADES FOR WHICH THERE IS AN APPROVED VALUE-ADDED MEASURE (15 points)

**Growth or achievement measure(s) from these options.**

***One or more of the following types of local measures of student growth or achievement may be used for the evaluation of teachers. The options in the drop-down menus below are abbreviated from the following list:***

Measures based on:

1) The change in percentage of a teacher's students who achieve a specific level of performance as determined locally, on such assessments/examinations compared to those students' level of performance on such assessments/examinations in the previous school year (e.g., a three percentage point increase in students earning the proficient level (three) or better performance level on the 7th grade math State assessment compared to those same students' performance levels on the 6th grade math State assessment, or an increase in the percentage of a teacher's students earning the advanced performance level (four) on the 4th grade ELA or math State assessments compared to those students' performance levels on the 3rd grade ELA or math State assessments)

2) Teacher specific growth score computed by the Department based on the percent of the teacher's students earning a State determined level of growth. The methodology to translate such growth into the State-established sub-component scoring ranges shall be determined locally

3) Teacher specific achievement or growth score computed in a manner determined locally based on a measure of student performance on the State assessments, Regents examinations and/or Department approved alternative examinations other than the measure described in subclause 1) or 2) of this clause

4) Student growth or achievement computed in a manner determined locally based on a State-approved 3rd party assessment

5) Student growth or achievement computed in a manner determined locally based on a district, regional or BOCES-developed assessment that is rigorous and comparable across classrooms

6) A school-wide measure of either student growth or achievement based on either:

(i) A State-provided student growth score covering all students in the school that took the State assessment in ELA or Math in Grades 4-8; or

(ii) A school-wide measure of student growth or achievement computed in a manner determined locally based on a State, State-approved 3rd party, or district, regional or BOCES developed assessment that is rigorous and comparable across classrooms.

### 3.1) Grades 4-8 ELA

Using the drop-down boxes below, select the measure that will be used as the locally-selected measure of student achievement. Then name the specific assessment that will be used with the locally-selected measure, listing the full name of the assessment.

5	4) State-approved 3rd party assessments	STAR Reading Enterprise
6	4) State-approved 3rd party assessments	STAR Reading Enterprise
7	4) State-approved 3rd party assessments	STAR Reading Enterprise
8	4) State-approved 3rd party assessments	STAR Reading Enterprise

For Grades 4-8 ELA: describe the district-adopted expectations for the level of growth or achievement needed for a teacher to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a teacher to earn any of the points in a scoring range, consistent with regulations and assurances.

*Note: When completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.*

Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 3.3, below.	All students in grades 4-8 ELA will be given the STAR Reading Enterprise pre-test to determine their starting level. Teachers/Principals will analyze the results and determine a goal for each individual student. (September) Teachers/Principals will set individual achievement goals for each student and the teacher HEDI score will be based on the percent of students who meet the teacher devised target.
Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	86 - 100% of students reach goal
Effective (8- 13 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	50 - 85% of students reach goal
Developing (3 - 7 points) Results are below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	31 - 49% of students reach goal
Ineffective (0 - 2 points) Results are well below District- or BOCES-adopted expectations for growth or achievement for grade/subject.	0 - 30% of students reach goal

Use this box, if needed, to describe the general process for assigning HEDI categories for these grades/subjects in this subcomponent. If needed, you may upload a table or graphic at 3.3, below.	All students in grade 4-8 will take the Star Math Assessment as early as possible in September. Teachers/Principals will analyze the results and set individual targets of achievement based on the scaled score. HEDI ratings will be assigned based on the percentage of students who achieve this goal.
Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	86 - 100% of students reach goal

#### 4.1) Teacher Practice Rubric

Select a teacher practice rubric from the menu of State-approved rubrics to assess performance based on NYS Teaching Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

The "Second Rubric" space is required for districts that have chosen an observation-only rubric (CLASS or NYSTCE) from the State-approved list.

(Note: Any district may use multiple rubrics, as long as the same rubric(s) is used for all classroom teachers in a grade/subject across the district.)

#### 4.2) Points Within Other Measures

State the number of points (if any) that will be assigned to each of the following measures, making sure that the points total 60. If you are not using a particular measure, enter 0.

This APPR form only provides one space for assigning points within other measures for teachers. If your district/BOCES prefers to assign points differently for different groups of teachers, enter the points assignment for one group of teachers below. For the other group(s) of teachers, fill out copies of this form and upload as an attachment for review.

Is the following points assignment applicable to all teachers?

Yes

If you checked "no" above, fill in the group of teachers covered by the points assignment indicated immediately below (e.g., "probationary teachers"):

If the district plans to use one or more of the following surveys of P-12 students from the menu of State-approved surveys, please check all that apply. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu. Note: As the State-approved survey lists are updated, this form will be updated with additional approved survey tools.

### 4.4) Assurances

Please check all of the boxes below:

4.4) Assurances   Assure that all NYS Teaching Standards not addressed in classroom observations are assessed at least once a year.	Checked
4.4) Assurances   Assure that the process for assigning points for the "other measures" subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educators' performance in ways that improve student learning and instruction.	Checked
4.4) Assurances   Assure that it is possible for an educator to earn each point, including 0, for the "other measures" subcomponent.	Checked
4.4) Assurances   Assure that the same rubric(s) is used for all classroom teachers in a grade/subject across the district.	Checked

### 4.5) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the teacher practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

Teachers will be evaluated using the four domains of the Danielson 2011 rubric. They will be weighted as follows:

Domain 1: Planning and Preparation - 25 pts.

Domain 2: Classroom Environment - 5 pts.

Domain 3: Instruction - 25 pts.

Domain 4: Professional Responsibilities - 5 pts.

The evidence binder will be used as part of the pre-conference and includes data from domains 1 and 4. Data collected/ observed during the classroom observation is reflected in domains 2 and 3 and subdomain A and F of domain 1. Each subcomponent will be scored from 1-4 and will be averaged together, the results will be the domain score. Each domain will be weighted as indicated above (I.e. the domain one rubric score multiplied by 25/60, domain 2 rubric score multiplied by 5/60, domain 3 rubric score multiplied by 25/60, domain 4 rubric score multiplied by 5/60. The weighted scores for each domain will be added together to result in a weighted rubric score from 1-4 which will converted to 0-60 using the attached chart. This will give an overall final score for that evaluation. All evaluation scores will be averaged to use for the composite at the end of the school year. At least one subcomponent from each domain will be evaluated per observation.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

Describe the level of performance required for each of the HEDI rating categories, consistent with the narrative descriptions in the regulations for the "other measures" subcomponent. Also describe how the points available within each HEDI category will be assigned.

Highly Effective: Overall performance and results exceed NYS Teaching Standards.	An average HEDI of 59-60 would result in an overall rating of Highly Effective.
Effective: Overall performance and results meet NYS Teaching Standards.	An average HEDI of 57-58 would result in an overall rating of Effective.
Developing: Overall performance and results need improvement in order to meet NYS Teaching Standards.	An average HEDI of 55-56 would result in an overall rating of Developing.
Ineffective: Overall performance and results do not meet NYS Teaching Standards.	An average HEDI of 0-54 would result in an overall rating of Ineffective.

Provide the ranges for the 60-point scoring bands.

Highly Effective	59-60
Effective	57-58
Developing	55-56
Ineffective	0-54

### 6.1) Assurances -- Improvement Plans

Please check the boxes below:

6.1) Assurances -- Improvement Plans   Assure that teachers who receive a Developing or Ineffective rating will receive a Teacher Improvement Plan (TIP) within 10 school days from the opening of classes in the school year following the performance year	Checked
6.1) Assurances -- Improvement Plans   Assure that TIP plans shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a teacher's improvement in those areas	Checked

### 6.2) Attachment: Teacher Improvement Plan Forms

As a required attachment to this APPR plan, upload the TIP forms that are used in the school district or BOCES. All TIP plans must include: 1) identification of needed areas of improvement, 2) a timeline for achieving improvement, 3) the manner in which the improvement will be assessed, and, where appropriate, 4) differentiated activities to support a teacher's improvement in those areas. For a list of supported file types, go to the Resources folder (above) and click Technical Tips. Please be sure to update a document with a form layout, with fillable spaces and not just a narrative.

### 6.3) Appeals Process

Pursuant to Education Law section 3012-c, a teacher may only challenge the following in an appeal:

(1) the substance of the annual professional performance review

(2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

#### THE APPEALS PROCESS

##### A. Teacher Request for Supporting Documents

Within ten (10) school days of receipt of the APPR, a teacher may request, in writing, that the administrator issuing the APPR provide to the teacher a copy of any and all documents and written materials upon which the APPR was based. The authoring administrator shall provide all such documents to the teacher within five (5) school days of the request. Only materials provided in response to this request shall be considered in the deliberations as to the validity of the APPR.

#### B. Right to Appeal

1. Only tenured teachers who receive an APPR rating of “Ineffective” or “Developing” may appeal their APPR through the procedure herein. A teacher may file only one appeal from a single APPR and one appeal from a TIP.
2. Probationary teachers may only appeal a rating score of “Ineffective” through the procedure established herein but may file a written rebuttal of a rating score of “Developing” which shall be attached to the APPR. Probationary teachers may only challenge claims of APPR procedural violations through the contractual grievance procedure.

#### C. Filing of Appeal by Tenured Teacher

A tenured teacher may file a written appeal of the APPR within fifteen (15) school days of the receipt of the requested supporting documents. Any appeal shall be filed with the Superintendent of Schools.

An appeal of an APPR must be based upon one or more of the following grounds:

1. The substance and rating of the APPR.
2. The District’s failure to adhere to the standards and methodologies required for the APPR that are set forth in Education Law 3012-c and applicable rules and regulations.
3. The District’s failure to comply with locally negotiated procedures; and
4. The District’s failure to issue and/or implement the terms of the Teacher Improvement Plan (TIP), where applicable, as required under Education Law 3012-c. The written appeal must clearly identify the grounds for appeal and shall explain, in detail, why the appealing teacher believes the APPR should be modified or vacated. When filing an appeal, the teacher must submit a detailed written description of the specific areas of disagreement over his/her performance review, or issuance and/or implementation of the terms of his/her Teacher Improvement Plan and any additional documents or materials relevant to the appeal.

#### D. Review by APPR Appeals Committee

1. APPR Appeals Committee Appeals shall be referred for consideration by the APPR Appeals Committee, a committee made up of a Labor Relations Specialist, an Administrator and a Teacher, selected from a non-bordering school district, that is agreed upon by the Oppenheim-Ephratah Superintendent of Schools and the Association Designee.

Any costs incurred by the APPR Appeals Process will be borne in entirety by the District.

#### 2. Determination of Appeal

A written decision on the merits of the appeal shall be rendered no later than fifteen (15) calendar days from the date upon which the teacher filed his/her appeal. The appeal shall be based on a written record, comprised of the teacher’s appeal papers and any documentary evidence accompanying the appeal. Upon the conclusion of its considerations of an appeal, each member of the committee shall vote to uphold the APPR, modify the APPR, or vacate the APPR. If the committee unanimously agrees on one of these choices, the committee shall render the final decision. In the event the committee is unable to reach a unanimous agreement in its decision on an appeal, each member of the committee shall write a brief statement setting forth and explaining his/her recommendation for the disposition of the appeal. The committee members’ written statements, together with the full record of the appeal, shall then be forwarded to the Superintendent of Schools and the OESTJTA designee, who jointly shall review the evidence before the Superintendent renders a final decision to resolve the appeal. The decision shall set forth the reasons and factual basis for each determination on each of the specific issues raised in the teacher’s appeal. The superintendent decision will be timely and expeditious in accordance with education law 3012-c. If the appeal is sustained, the reviewer may set aside a rating if it has been affected by substantial error or defect, modify a rating if it has been affected by substantial error or defect, or order a new evaluation if procedures have been violated. A copy of the decision will be provided to the teacher and the evaluator. The teacher may rebut the appeal in writing but may not appeal the substance of the decision. However, failure of the District or Association to abide by the above agreed upon process is subject to the grievance procedure.

## 6.4) Training of Lead Evaluators and Evaluators and Certification of Lead Evaluators

Describe the process for training lead evaluators and evaluators. Your description must include 1) the process for training lead evaluators and evaluators, 2) the process for the certification and re-certification of lead evaluators, 3) the process for ensuring inter-rater reliability, 4) the nature (content) and the duration (how many hours, days) of such training.

Interrater reliability will be monitored by continual professional development provided by district BOCES.

Each evaluator has taken 25-30+ hours of administrative training by district BOCES. Certification was given at the successful completion of the trainings. Recertification will occur in the same manner annually going forward. Training was on evidence collection and rubric.

# 7. Growth on State Assessments or Comparable Measures (Principals)

Created Thursday, August 29, 2013  
Updated Monday, September 02, 2013

## Page 1

### 7.1) STATE-PROVIDED MEASURES OF STUDENT GROWTH (25 points with an approved Value-Added Measure)

For principals in buildings with Grades 4-8 ELA, Math and/or High School courses with State or Regents assessments, (or principals of programs with any of these assessments), NYSED will provide value-added measures. NYSED will also provide a HEDI subcomponent rating category and score from 0 to 25 points.

In order for a principal to receive a State-provided value-added measure, at least 30% of the students in the principal's school or program must take the applicable State or Regents assessments. This will include most schools in the State.

Please list the grade configurations of the school(s)/program(s) in your district/BOCES where it is expected that 30-100% of a principal's students are taking assessments with a State-provided growth or value-added measure, (e.g., K-5, PK-6, 6-8, 6-12, 9-12, etc.).

Value-Added measures will apply to schools or principals with the following grade configurations in this district (please list, e.g., K-5, PK-6, 6-8, 6-12, 9-12):

Please check the boxes below:

7.2) Assurances -- State-Provided Measures of Student Growth   Assure that the value-added growth score(s) provided by NYSED will be used, where applicable	Checked
7.2) Assurances -- State-Provided Measures of Student Growth   Assure that the State-provided growth measure will be used if a value-added measure has not been approved	Checked

### 7.3) STUDENT LEARNING OBJECTIVES AS COMPARABLE GROWTH MEASURES (20 points)

Student Learning Objectives will be the other comparable growth measures for principals in buildings or programs in which fewer than 30% of students take Grades 4-8 ELA, Math, and/or High School courses with State or Regents assessments. SLOs will be developed

using the assessments covering the most students in the school or program and continuing until at least 30% of students in the school or program are covered by SLOs. The district must select the type of assessment that will be used with the SLO from the options below.

If any grade/course in the building has a State-provided growth measure AND the principal must have SLOs because fewer than 30% of students in the building are covered, then the SLOs will begin first with the SGP/VA results.

Additional SLOs will then be set based on grades/subjects with State assessments, where applicable.

If additional SLOs are necessary, principals must begin with the grade(s)/course(s) that have the largest number of students using school-wide student results from one of the following assessment options: State-approved 3rd party or district/regional/BOCES-developed assessments that are rigorous and comparable across classrooms.

State assessments, *required if one exists*

District, regional, or BOCES-developed assessments that are rigorous and comparable across classrooms

List of State-approved 3rd party assessments

First, list the grade configuration of the school or program the SLO applies to. Then, using the drop-down boxes below, please select the type of assessment that will be used for SLOs for the school/program listed. Finally, name the specific assessment listing the full name of the assessment. Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: “[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment.” For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: “GVEP-Developed Grade 7 Social Studies Assessment.” For State-approved 3rd party assessments, please include the name of the assessment exactly as it appears in RED on the State-approved list. For State assessments or Regents examinations, please indicate as such in the assessment name.

School or Program Type	SLO with Assessment Option	Name of the Assessment
Not applicable		

Describe the district-adopted expectations for the level of performance required for each HEDI rating category and the process for assigning points to principals based on SLO results, consistent with regulations and assurances in the Comparable Growth Measures subcomponent. Include any district-determined expectations for student performance. Please describe the process your district is using to measure student growth on the assessments listed for this Task. If applicable, please also include a description of the process for combining the State-provided growth score with the SLO(s) for this Task.

Use this box, if needed, to describe the process for assigning HEDI categories in this subcomponent. If needed, you may upload a table or graphic below.	Not applicable
Highly Effective (18 - 20 points) Results are well above state average for similar students (or District goals if no state test).	Not Applicable
Effective (9 - 17 points) Results meet state average for similar students (or District goals if no state test).	Not applicable
Developing (3 - 8 points) Results are below state average for similar students (or District goals if no state test).	Not applicable
Ineffective (0 - 2 points) Results are well below state average for similar students (or District goals if no state test).	Not applicable

If you are using tables or other graphics to explain your process for assigning HEDI categories, please clearly label them, combine them into a single file, and upload that file here.

(No response)

## 7.4) Special Considerations for Comparable Growth Measures

Describe any adjustments, controls, or other special considerations that will be used in assigning points to a principal's score for this subcomponent, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Note: The only allowable controls or adjustments for Comparable Growth Measures are the following: prior student achievement results, students with disabilities, English language learners, and students in poverty.

Not applicable

## 7.5) Principals with More Than One Growth Measure

If educators have more than one state-provided growth or value-added measure, those measures will be combined into one HEDI category and score for the growth subcomponent according to a formula determined by the Commissioner. (Examples: Principals of K-8 schools with growth measures for ELA and Math grades 4-8.)

If Principals have more than one SLO for comparable growth (or a State-provided growth measure and an SLO for comparable growth), the measures will each earn a score from 0-20 points and Districts will weight each in proportion to the number of students covered by the SLO to reach a combined score for this subcomponent.

## 7.6) Assurances -- Comparable Growth Measures

Please check all of the boxes below:

7.6) Assurances -- Comparable Growth Measures   Assure the application of locally developed controls will be rigorous, fair, and transparent and only those used for State Growth will be used for Comparable Growth Measures.	Checked
7.6) Assurances -- Comparable Growth Measures   Assure that use of locally developed controls will not have a disparate impact on underrepresented students in accordance with applicable civil rights laws.	Checked
7.6) Assurances -- Comparable Growth Measures   Assure that procedures for ensuring data accuracy and integrity are being utilized.	Checked
7.6) Assurances -- Comparable Growth Measures   Assure that district will develop SLOs according to the rules established by NYSED for principal SLOs: <a href="http://www.engageny.org/resource/student-learning-objectives-guidance-document">http://www.engageny.org/resource/student-learning-objectives-guidance-document</a> .	Checked
7.6) Assurances -- Comparable Growth Measures   Assure that the process for assigning points for SLOs for the Growth Subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate educator performance in ways that improve student learning and instruction.	Checked
7.6) Assurances -- Comparable Growth Measures   Assure that it is possible for a principal to earn each point, including 0, for SLOs in the Growth subcomponent scoring range.	Checked
7.6) Assurances -- Comparable Growth Measures   Assure that processes are in place to monitor SLOs to ensure rigor and comparability across classrooms.	Checked

# 8. Local Measures (Principals)

---

## Page 1

### Locally-Selected Measures of Student Achievement or Growth

Locally comparable means that the same locally-selected measures of student achievement or growth must be used for all principals in the same or similar programs or grade configurations across the district or BOCES.

Please note: only one locally-selected measure is required for principals in the same or similar programs or grade configurations, but some districts may prefer to have more than one measure for principals in the same or similar programs or grade configurations. This APPR form therefore provides space for multiple locally-selected measures for each principal in the same or similar program or grade configuration across the district. Therefore, if more than one locally-selected measure is used for all principals in the same or similar program or grade configuration, districts must complete additional copies of this form and upload as attachments for review.

Also note: districts may use more than one locally-selected measure for **different** groups of principals **within the same or similar programs or grade configurations** if the district/BOCES prove comparability based on Standards of Educational and Psychological Testing. If a district is choosing different measures for different groups of principals within the same or similar programs or grade configurations, they must complete additional copies of this form and upload as attachments for review.

Districts or BOCES that intend to use a district, regional, or BOCES-developed assessment must include the name, grade, and subject of the assessment in the following format: “[Name of your District/Region/BOCES] developed [Grade] [Subject] Assessment.” For example, a BOCES-developed 7th grade Social Studies assessment would be written as follows: “GVEP-Developed Grade 7 Social Studies Assessment.”

Also note: if your district/BOCES is using the same assessment for both the State growth or other comparable measures subcomponent and the locally-selected measures subcomponents, be sure that a *different* measure of student performance is being used with the assessment (e.g., achievement rather than growth; growth measured in a different manner).

### 8.1) LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR PRINCIPALS WITH AN APPROVED VALUE-ADDED MEASURE (15 points)

**In the table below, please list the grade configurations of the school(s)/program(s) in your district/BOCES where it is expected that 30-100% of a principal’s students are taking assessments with a State-provided growth or value-added measure (e.g., K-5, 6-8, 9-12). Then for each grade configuration, select a measure of growth or achievement from the drop-down menu. As a reminder, the grade configurations/programs listed in Task 8.1 should be the same as those listed in Task 7.1.**

***Note: Districts and BOCES may select one or more types of growth or achievement measures for each grade configuration. If you are using more than one type of local measure for the evaluation of principals in a given grade configuration, list that grade configuration multiple times. If more space is needed, duplicate this portion of the form and upload additional pages (below) as an attachment.***

***The options in the drop-down menus below are abbreviated from the following list:***

Describe the district-adopted expectations for the level of growth or achievement needed for a principal to earn each of the four HEDI rating categories and the process for assigning points within rating categories that ensures it is possible for a principal to earn any of the points in a scoring range, consistent with regulations and assurances.

*Note: when completing the HEDI boxes below, it is not acceptable to just repeat the text descriptions from the regulations and/or assurances listed to the left of each box.*

Use this box, if needed, to describe the process for assigning HEDI categories. If needed, you may upload a table or graphic below.	Using student prior academic history, principals in collaboration with the superintendent will set individual achievement targets for the students in their building. HEDI points are awarded to the principal based on the percentage of students school wide meeting or exceeding their targets.
Highly Effective (14 - 15 points) Results are well above District- or BOCES-adopted expectations for growth or achievement for grade/subject.	See attached
Effective (8- 13 points) Results meet District- or BOCES-adopted expectations for growth or achievement for grade/subject.	See attached

## 8.2) LOCALLY SELECTED MEASURES OF STUDENT ACHIEVEMENT FOR ALL OTHER PRINCIPALS (20 points)

**In the table below, list all of the grade configurations/programs used in your district or BOCES in which the district/BOCES expects that fewer than 30% of students will receive a State-provided growth score (e.g., K-2, K-3, CTE). Then for each grade configuration, select a measure from the drop-down menu. As a reminder, the grade configurations/programs listed in Task 8.2 should be the same as those listed in Task 7.3.**

**Note: Districts and BOCES may select one or more types of growth or achievement measures for each grade configuration. If you are using more than one type of local measure for the evaluation of principals in a given grade configuration, list that grade configuration multiple times. If more space is needed, duplicate this portion of the form and upload additional pages (below) as an attachment.**

### 8.3) Locally Developed Controls

Describe any adjustments, controls, or other special considerations that will be used in assigning points to a teacher’s score for this subcomponent, the rationale for including such factors, and the processes that will be used to mitigate potentially problematic incentives associated with the controls or adjustments.

Historical data shows that special education students, students attending multiple schools per year, and high poverty rate perform significantly lower than our general ed. population this is to account for the disparity within different classrooms.

The district sees no potentially problematic incentives as we have an "open door" policy on school enrollment. It has no control of who resides within the combined districts. For principals with 1-5% of students falling in one of the above listed categories, the principal will receive one additional HEDI point. With principals with 6% or more, the principal will receive two additional HEDI points. In no way will any control or adjusts increase a principal score by more than 2 points.

## 8.4) Principals with More Than One Locally Selected Measure

Describe the district's process for combining multiple locally selected measures where applicable for principals, each scored from 0-15 or 0-20 points as applicable, into a single subcomponent HEDI category and score.

For principals with more than one locally selected measure, each locally selected measure goal will be weighted proportionately based on the number of students in each grade level and converted using the appropriate conversion chart.

### 9.1) Principal Practice Rubric

Select the choice of principal practice rubric from the menu of State-approved rubrics to assess performance based on ISLLC 2008 Standards. If your district has been granted a variance by NYSED through the variance process, select "district variance" from the menu.

The "Second Rubric" space is optional. A district may use multiple rubrics, as long as the same rubric(s) is used for all principals in the same or similar programs or grade configurations across the district.

If your district/BOCES prefers to assign points differently for different groups of principals, enter the point assignment for one group of principals below. For the other group(s) of principals, fill out copies of this form and upload as an attachment for review.

Please check all of the boxes below:

9.6) Assurances   Assure that all ISLLC 2008 Leadership Standards are assessed at least one time per year.	Checked
9.6) Assurances   Assure that the process for assigning points for the "other measures" subcomponent will use the narrative HEDI descriptions described in the regulations to effectively differentiate principals' performance in ways that improve student learning and instruction	Checked
9.6) Assurances   Assure that it is possible for a principal to earn each point, including 0, for the "other measures" subcomponent.	Checked

## 9.7) Process for Assigning Points and Determining HEDI Ratings

Describe the process for assigning points and determining HEDI ratings using the principal practice rubric and/or any additional instruments used in the district. Include, if applicable, the process for combining results of multiple "other measures" into a single result for this subcomponent.

Domain 1: Shared Vision of learning= 15 pts.  
 Domain 2: School Culture and Instructional Programs= 15 pts.  
 Domain 3: safe, Efficient, Effective learning Environment= 15 pts.  
 Domain 4: Community Involvement= 5 pts.  
 Domain 5: Integrity, Fairness, Ethics= 5 pts.  
 Domain 6: Political, Social, Economic, Legal, and Cultural Context= 5 pts.

Each dimension in a domain will be scored from 0-1. HE =1, E= .75, D=.5, and I=0. The points for each dimension in a domain will be added together and divided by 10 to yield a score from 0 to 1 which will then be multiplied by the points allocated in that domain to result in a domain score. Domain scores will be added together to result in a score from 0 to 60. Normal rounding rules will apply. Each dimension will be scored at the end of the year based on the totality of the evidence collected across multiple school visits.

If you are using tables or other graphics to explain your process for assigning points and determining HEDI ratings, please clearly label them, combine them into a single file, and upload that file here.

### 11.1) Assurances -- Improvement Plans

Please check the boxes below.

11.1) Assurances -- Improvement Plans   Assure that principals who receive a Developing or Ineffective rating will receive a Principal Improvement Plan (PIP) within 10 school days from the opening of classes in the school year following the performance year	Checked
11.1) Assurances -- Improvement Plans   Assure that PIPs shall include: identification of needed areas of improvement, a timeline for achieving improvement, the manner in which the improvement will be assessed, and, where appropriate, differentiated activities to support a principal's improvement in those areas	Checked

### 11.2) Attachment: Principal Improvement Plan Forms

As a required attachment to this APPR plan, upload the PIP forms that are used in the school district or BOCES. All PIP plans must include: 1) identification of needed areas of improvement, 2) a timeline for achieving improvement, 3) the manner in which the improvement will be assessed, and, where appropriate, 4) differentiated activities to support a principal's improvement in those areas.

For a list of supported file types, go to the Resources folder (above) and click Technical Tips. Please be sure to update a document with a form layout, with fillable spaces and not just a narrative.

### 11.3) Appeals Process

Pursuant to Education Law section 3012-c, a principal may only challenge the following in an appeal:

(1) the substance of the annual professional performance review

(2) the school district's or BOCES' adherence to the standards and methodologies required for such reviews, pursuant to Education Law section 3012-c

(3) the adherence to the regulations of the Commissioner and compliance with any applicable locally negotiated procedures, as well as the school district's or BOCES' issuance and/or implementation of the terms of the teacher or principal improvement plan, as required under Education Law section 3012-c

Describe the procedure for ensuring that appeals of annual performance evaluations will be handled in a timely and expeditious way:

#### APPR Appeal Process:

To the extent a principal wishes to challenge his or her performance and/or improvement plan (PIP) under the APPR system, the District has developed an appeals procedure that applies to principals.

The principals in the OESJ district are newly appointed, 2013 and deemed "probationary".

#### Right to Appeal:

Only tenured principals who receive an APPR rating of "Ineffective" or "Developing" may appeal through the APPR Appeals Form. A principal may file only one appeal from a single APPR.

Principal Request for supportive Documents: Within five (5) school days of the APPR, a principal may request, in writing, that the supervising administrator issuing the APPR provide the principal a copy of any and all documents and written rebuttal which shall be attached to the APPR.

#### Filing of an Appeal by Tenured Principal:

A tenured principal may file a written appeal of the APPR within (10) school days of the receipt of the requested supporting documents. Any appeal shall be filed with the Superintendent of Schools.

An Appeal of an APPR must be based on one or more of the aforementioned reasons.

The written appeal document must clearly identify the grounds for appeal, and shall explain, in detail, why the appealing principal believes the APPR should be modified.

#### Review by APPR Appeals Committee:

Appeals shall be referred for consideration by the APPR Appeal Committee, a committee comprised of (1) administrator within the District and the Superintendent of Schools.

The APPR Appeals Committee shall convene to consider an appeal within (10) school days of the filing of the appeal.

The Parties agree that in the event unforeseen circumstances require a modification; the Superintendent of School will determine how to proceed in compliance with timely and expeditious requirements of education law 30.12-c. Determination of Appeal: The APPR Appeals Committee may modify the PIP, set aside the rating, uphold the rating and/or call for a new review conducted by the BOCES district superintendent (not the original evaluator).

A written determination will be rendered within (15) school days.

In the event there is no majority opinion of the APPR Appeals Committee, the BOCES District Superintendent of Schools will make the final determination within 15 days of the committee not reaching a majority.

The determination of the appeal process pursuant to the above process is final and binding, and not subject to further appeal. The entire appeals process will be timely and expeditious in accordance with education law 3012-c.

## 11.4) Training of Lead Evaluators and Evaluators and Certification of Lead Evaluators

Describe the process for training lead evaluators and evaluators. Your description must include 1) the process for training lead evaluators and evaluators, 2) the process for the certification and re-certification of lead evaluators, 3) the process for ensuring inter-rater reliability, 4) the nature (content) and the duration (how many hours, days) of such training.

Interrater reliability will be verified by HFM BOCES evaluator.

Principals have taken 25-30+ hours of administrative training. Training will continue throughout the school year. Successful completion of training will result in certification. Recertification will occur in the same manner, annually. Training was on evidence collection and the MPPR rubric.
